Steven,

Thank you for your email. Multimedia does not intend to continue pursuing the '168 patent in this matter and therefore the '168 terms you listed as remaining for briefing can be dropped.

We have a few follow-up questions to your email.

First, "report generator" ('928 patent) is listed as both being briefed and not being briefed. Could you please confirm whether Vizio is dropping or briefing this term?

Second, "the metadata characteristic" ('527 patent) is listed in Vizio's 4-3 chart (page 31), but not in your email as being dropped or briefed. Could you please let us know whether Vizio intends to brief this term?

Third, "the first portion of the display includes substantially an entire area of a screen of the TV" ('255 patent) was addressed by this Court in the *LG* matter. We would like to confirm that Vizio nevertheless intends to brief it here and that this was not an oversight. Thank you.

Best,
Chris
