Subject: RE: IPR2024-00744

Counsel,

From the Board –

Petitioner has filed multiple copies of two exhibits (Exhibit 1005 and Exhibit 1009), without explanation or leave from the Board. The record of this proceeding is now unclear, and Patent Owner has objected. The Board will treat Petitioner's filings as a request for leave to file a motion to substitute exhibits. Petitioner shall file a motion to substitute new exhibits for the originally filed versions of Exhibits 1005 and 1009. Petitioner's motion should address why the proposed substitutions are warranted, differences between the updated exhibits and the originally filed versions of Exhibits 1005 and 1009, and which files should be expunged to provide a clear record. Petitioner's motion is due Tuesday, September 10, 2024. Patent Owner may file an opposition to Petitioner's motion by Friday, September 20, 2024.

Going forward, the Board reminds Petitioner to comply with the requirement in 37 C.F.R. § 42.6(c) that "[e]ach exhibit must be filed with the first document in which it is cited except as the Board may otherwise order." Additionally, in the future, should Petitioner want to take action beyond that already authorized by the Board's Rules, Petitioner is reminded to contact the Board (and copy Patent Owner) seeking leave.

Dear Counsel,

We apologize for the previous filing, it was an internal office error. We have refiled it as a request for updated exhibits today along with the certification of the translator for the Taiwan proceedings. The filing is attached to this e-mail. Only the certification for exhibit 1009 is attached here (the rest being identical to the original filing) due to the file size.

Best regards,

Margaret Burke

Dear Honorable Board,

Patent Owner respectfully objects to Ex-1005 filed (but not served) by Petitioner on August 21, 2024 in IPR2024-00744. The exhibit was filed without a corresponding paper, without prior authorization, and in violation of 37 CFR 42.6(c), (d), and (e). Please advise if this email is sufficient to raise the objection.

Best regards,

Fadi Kiblawi
