The new hexagon designed grid creates a more effective means to direct liquids quickly into the absorbent core and allows the end-user to see when the mat has become soiled and in need of replacement. New polymers with increased flexibility conform to uneven floor surfaces and allow the soiled mat to easily be folded, rolled or even wadded up to fit in the receptacle for effortless disposal. DEO-GARD mats used under urinals or commodes will neutralize odors by catching and quickly absorbing unwanted splashes and drips, protecting your floor from stain, discoloration and uric acid damage with a non-glued moisture barrier backing.
