Subject: Follow up

John

Thank you for the time you and your team gave us today. We really appreciated it very much. As discussed I'll follow up directly with an outline of potential collaboration areas.

I have a couple of follow up questions/requests;

1. Could I have an electronic copy of the presentation please?

■ [REDACTED]
[REDACTED]

3. We didn't really discuss in depth the difference between "traditional" steaming and Move streaming - other than the effect. Whether intentional or not the switch from your streaming to the Flash ad was in itself an ad for you! But, in your opinion why are the current streaming protocols broken? There is enough bandwidth but they cannot get the results you do. How long do you think it takes

them to fix their protocols as you gain momentum in the market? I have my opinion on this but would like to hear your view as you are closer to it.

Regards,

Mark.
