Software

Digital Photo Professional

Digital Photo Professional (DPP) is a high-performance RAW image processing, viewing and editing software for EOS digital cameras and PowerShot models with RAW capability. Using DPP you can easily perform basic and advanced editing and printing of RAW images. An example of the available editing functions are image rotation, white balance adjustment, dynamic-range adjustment, colour adjustment and fine-tuning of tone curve characteristics.

DPP supports sRGB, Adobe RGB, Wide Gamut RGB and Colour Management System (CMS) using the International Colour Consortium (ICC) Profile.

Digital Photo Professional is included in the initial software setup for your Canon camera.
