

Canon DIGIC 6 Processor and New 18Mp APS-C CMOS Sensor Arrives

By admin, on March 23rd, 2013

Canon announced 700D / T5i, 100D / SL1 and SX280HS , the new SL1 features newly developed 18Mp sensor but can't confirm that it's also in the T5i, the company decided to unveil its new DIGIC 6 image processor in a point-and-shoot camera – SX280HS.

The latest version of SX series camera features improved the ISO range (80-6,400), according to canon the SX280HS features 2 stop noise improvements compared to its predecessor, the camera features continuous shooting speed of 3.8 fps, SX280HS can also capture HQ Burst @ 14 fps.

Other improvements include Hybrid Auto-focus in Still + Video mode, Full HD Video recording at 60 and 30 fps and introduction of MP4 recording format in SX series of camera.

Not much details available about the Canon new 18Mp APS-C CMOS sensor, take a look at the image below and share your thought with us.
