Overview

Advanced EOS Features, Rebel Simplicity

Designed to make high quality imaging simple and fun, the EOS Rebel T6s camera is the most sophisticated Rebel ever. It has powerful features like a 24.2 Megapixel CMOS Sensor, a DIGIC 6 Image Processor and compatibility with Canon's entire line of EF and EF-S lenses. Plus, the EOS Rebel T6s is the first Rebel to include advanced options like a top LCD display panel and a Quick Control dial (with locking mechanism), even a built-in level display, all in an elegant, compact and portable package. For stills, the EOS Rebel T6s can shoot incredibly quickly in Live View mode with Servo Burst Shooting, plus it has a number of advanced HD movie shooting features that include HDR video recording and Movie Digital Zoom. And, a Rebel first, the EOS Rebel T6s comes equipped with built-in Wi-Fi® and NFC, making it possible to transfer and share photos easily and conveniently to compatible devices without having to rely on using cables. Near Field Communication* (NFC) allows the camera to pair with compatible Android™ devices** and even Canon's new Connect Station CS100. With the simple versatility of the Rebel line, plus features rarely found in this camera class, the sky's the limit with the EOS Rebel T6s.

* Compatible with iOS® versions 8.4/9.3/10.2, Android smartphone and tablet versions 4.1/4.2/4.3/4.4/5.0/5.1/6.0/7.0/7.1. Data charges may apply. With the download of the free Canon Camera Connect app, this software helps enable you to upload images to social network services. Before uploading images, please be aware that image files may contain privacy-related information such as people and places. If necessary, please delete such information. Canon does not obtain, collect or use

such images or any information included in such images through this software.
** Compatible with Android™ smartphone and tablet versions 4.1/4.2/4.3/4.4/5.0/5.1/6.0/7.0/7.1.
