Engineered for multiple hair types and styles.

Machine condition explained

Dyson Renewed machines have been expertly serviced and hygienically cleaned. We test every machine to ensure it performs to our uncompromising standards. Any imperfections are purely cosmetic and can range from micro scratches and light scuffs to more visible marks, or discoloration to paint finishes and surfaces.

Direct from Dyson Renewed

What goes into a Dyson Renewed machine

What's included with a refurbished machine

In the box

Refurbished first-generation Dyson Airwrap™ styler Complete (Nickel/Fuchsia)

1.2 inch Airwrap™ barrels

1.6 inch Airwrap™ barrels

Firm smoothing brush

Soft smoothing brush

Round volumizing brush

Pre-styling dryer

Filter cleaning brush

Storage case

Curl. Wave. Smooth. Dry.

With no extreme heat.

The Dyson Airwrap™ styler completely resets the world of hair styling. By combining our powerful digital motor with aerodynamics, we've been able to harness a phenomenon known as the Coanda effect to curl, wave and smooth hair – with no extreme heat.

Attachments

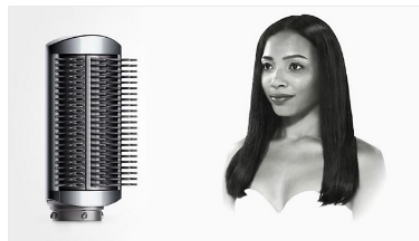

1.2 inch Airwrap™ barrels

Create and set voluminous curls or waves. With clockwise and counter-clockwise barrels for symmetrical curls.

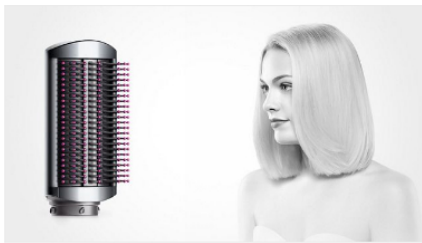

1.6 inch Airwrap™ barrels

Create and set loose curls or waves. With clockwise and counter-clockwise barrels for symmetrical curls.

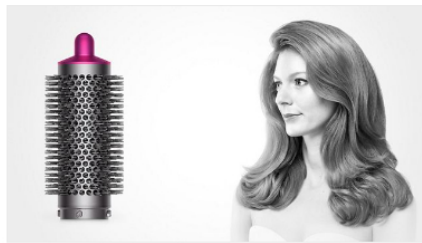

Firm smoothing brush

Creates a straighter style with less frizz and fewer flyaways.¹ With firm bristles engineered to control frizz-prone hair.

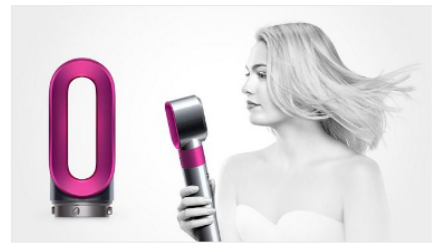

Soft smoothing brush

Creates a smooth, blow-dry finish. With soft, ball-tip bristles engineered to be gentle on the scalp.

Round volumizing brush

Directs air into the hair to give body, and the bristles create tension to shape hair as it dries.

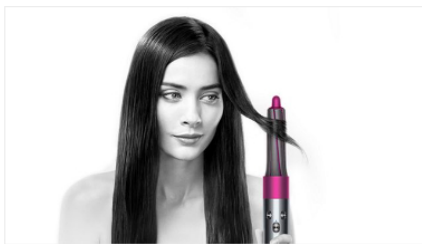

Pre-styling dryer

Takes hair from wet to damp, ready for styling.

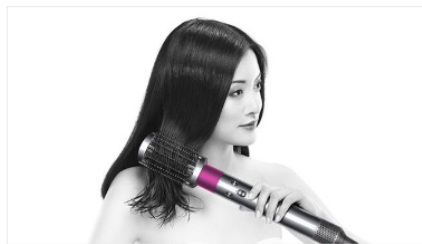

¹ vs. untreated hair.

Features

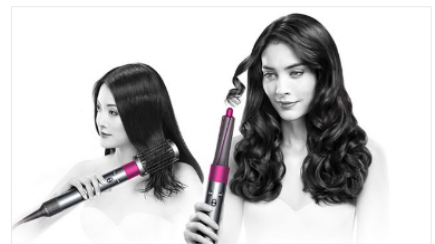

Attracts and wraps hair. Using air.

The Coanda effect attracts hair to the barrel, then wraps it for you. No clamping, gloves or awkward winding mechanisms. Just voluminous curls and waves.

Styles and dries simultaneously

The Dyson Airwrap™ styler combines powerful airflow with controlled heat, to dry and style your hair from damp – with no extreme heat.

Voluminous curls and waves. Or a smooth, blow-dry finish.

All Dyson Airwrap™ styler sets come with barrels to curl or wave hair, and brushes to smooth.

Technology

Coanda to curl

A continuous flow of air forms around the barrel, attracting hair to its surface, creating voluminous curls and waves without extreme heat.

Dyson digital motor V9

The 13-blade impeller spins at up to 110,000rpm, generating 3.2kPa. Powerful enough to produce the air pressure needed to create the Coanda effect.

Intelligent heat control

Intelligent heat control measures airflow temperature over 40 times a second and regulates heat, to ensure it always stays below 302°F.
