Counsel:

The panel has further considered logistics for this hearing. The hearing will proceed as follows.

The hearing now will begin at 11:00 Central time / Noon eastern time. There will be one hearing for both matters, and the parties may partition their time between the two matters as they see fit. We note that combining the hearing for the matters may permit some efficiency especially regarding objective indicia arguments.

At the end of the hearing, the hearing will be closed to the public to permit the parties to present arguments involving non-public matters. All other arguments will be public.

Each side will be permitted two hours total to present their argument for both matters. Each side will be permitted an opening argument addressing both matters, a rebuttal, and, finally, a non-public argument. At the beginning of the hearing, the panel may ask the parties to estimate how much time they will need for each of these three portions of their argument, but the parties may use the two hours however they wish. The panel expects to have a short break during the hearing at least after the opening arguments.

Regards,

Andrew Kellogg,
Deputy Chief Clerk, Trials
Patent Trial and Appeal Board

Subject: IPR2024-00984, -01052

CAUTION: This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Dear Honorable Board,

I am counsel for Patent Owner and write regarding the upcoming oral arguments in the above IPR proceedings.

According to the Board's September 5, 2025 Order, the oral arguments in IPR2024-00984 and -01052 are both scheduled for noon on October 7 in the PTAB's Southwest Regional office in Dallas, to be argued before the same panel. Patent Owner reached out to the Help Desk, and based on that call it is our understanding that the oral arguments are intended to proceed back-to-back. Patent Owner proposes that the hearing begin with the lowered numbered IPR first, the -00984 proceeding, for one hour each side, followed by the -01052 proceeding for one hour each side. The parties have conferred and Petitioner does not oppose this request, but has stated that the "the email should be from Patent Owner only and not indicate the parties have agreed to any specific arrangement on the order of hearings."

Should the Panel require a conference call, the parties will revert with their availability.

Respectfully Submitted,
Quincy Lu
