

5. “coordinate[s]” (all asserted claims)

195. I understand that Samsung proposed the construction “form[s] a dative bond with.” I further understand that Pictiva proposed the construction “plain and ordinary meaning, i.e., ‘have/has a bonding interaction.’”

Pictiva’s Proposed Construction	Samsung’s Proposed Construction
plain and ordinary meaning, i.e., “have/has bonding interaction”	“form[s] a dative bond with” or, alternatively, “form[s] a chemical bond between two atoms in which a shared pair of electrons forms the bond and the pair has been supplied by one of the two atoms”
