

**“Crusher Crop” Infringement Claim Chart for
U.S. Patent No. 9,808,036 (“the ‘036 Patent”)**

Rabbit directly and indirectly infringes Claims 1, 3, 11, and 13 (“Asserted Claims”) of the ‘036 Patent by making, offering, selling, and using the “Crusher Crop.” The Crusher Crop infringes the ‘036 Patent because it includes all of the features embodied in the Claims 1 and 11, either literally or under the doctrine of equivalents. Rabbit indirectly infringes each of those claims by knowingly, intentionally inducing others to use or offer or sell the “Crusher Crop.” Claims 3 and 13 of the ‘036 Patent are infringed whenever someone inserts an object into the Crusher Crop’s pocket(s), which is an intended design and use of the Crusher Crop and Rabbit has done (as demonstrated in Ex. 5) and knowingly, intentionally induces Crusher Crop purchasers and users to do.

Here are two images of the Crusher Crop from Rabbit’s website:¹

³ See *supra*, note 1.

	
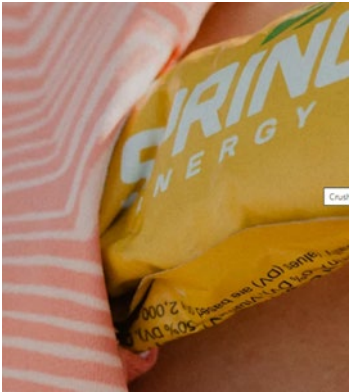

[1.2] and comprising left and right cups, each cup being an area to receive a breast of a wearer and having inside and outside surfaces, the strap assembly being attached to the cups whereby the strap assembly connects the cups to the wearer, each cup having upper, lower, interior body facing, and opposite exterior edges;	The Crusher Crop has an area for receiving each a left and right breast of the wearer with inside and outside surfaces:  The Crusher Crop has a strap assembly attached to the cups connecting the cups to the wearer.  Each area for receiving a breast on the Crusher Crop has an upper, lower, interior, and exterior-facing edge.
[1.3] a patch forming a pocket operatively associated with at least one of the left and right cups, the patch having an upper edge, a lower interior body facing edge, and an opposite lower exterior edge, the patch having inside and outside surfaces;	The Crusher Crop has a patch forming two pockets: one associated with each cup:

	 The patch has one surface facing inside and another facing outside.
[1.4] stitching coupling the lower interior body facing edge, and the opposite lower exterior edge of the patch to at least one of the lower, interior body facing, and opposite exterior edges of the at least one of the left and right cups, or the chest strap;	The Crusher Crop's patch is attached with stitching.
[1.5] an opening formed along the upper edge of the patch;	The Crusher Crop's pocket has an opening along the upper edge of the patch: 
[1.6] the opening capable of repeated receiving and removal of an item when being worn by the wearer; and	As depicted in Rabbit's marketing material, a wearer is either inserting or removing an item into or from the Crusher Crop's front pocket: 

[1.7] wherein the upper edge of the patch crosses over a surface of the cup to form the opening, the upper edge of the patch being offset from an upper edge of the cup

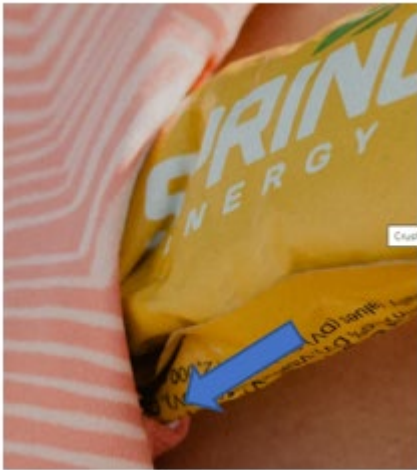

The Crusher Crop's upper-edge patch opening is offset below the upper edge of the cup, crossing over a surface of the cup.

U.S. Patent No. 9,808,036 (Claim 3)	Infringing Rabbit Product (Crusher Crop)
[3] A bra pocket system comprising the pocket bra of claim 1 and further comprising a non-padding item removably positioned within the pocket of at least one of the left and right cups.	Rabbit's marketing materials demonstrate a non-padding item removably inserted into one of the Crusher Crop's front pockets: 

U.S. Patent No. 9,808,036 (Independent Claim 11)	Infringing Rabbit Product (Crusher Crop)
11. [pre] A pocket bra comprising:	Rabbit admits that the Crusher Crop is “designed for you to have minimal interruptions thanks to the 2 front nutrition pockets and a built-in bra.” ⁴
[11.1] a strap assembly comprising a chest strap;	The Crusher Crop has a chest strap: 
[11.2] and comprising left and right cups, each cup being an area to receive a breast of a wearer and having inside and outside surfaces, the strap assembly being attached to the cups whereby the strap assembly connects the cups to the wearer, each cup having upper, lower, interior body facing, and opposite exterior edges;	The Crusher Crop has an area for receiving each a left and right breast of the wearer with inside and outside surfaces:  The Crusher Crop has a strap assembly attached to the cups connecting the cups to the wearer.  Each area for receiving a breast on the Crusher Crop has an upper, lower, interior, and exterior-facing edges.

⁴ See Note 1.

[11.3] a patch forming a pocket operatively associated with one at least of the left and right cups, the patch having an upper edge, a lower interior body facing edge, and an opposite lower exterior edge, the patch having inside and outside surfaces;	The Crusher Crop has a patch across the front forming two pockets: one associated with each cup: 
[11.4] stitching coupling the lower interior body facing edge, and the opposite lower exterior edge of the patch to the lower, interior body facing, and opposite exterior edges of the at least one of the left and right cups;	The Crusher Crop's pocket is attached with stitching.
[11.5] an opening formed along the upper edge of the patch;	The Crusher Crop's pocket has an opening along the upper edge of the patch: 
[11.6] the opening capable of repeated receiving and removal of an item when being worn by the wearer; and	As depicted in Rabbit's marketing material, a wearer is either inserting or removing an item into or from the Crusher Crop's front pocket:

	
[11.7] wherein the upper edge of the patch crosses over a surface of the cup to form the opening, the upper edge crossing such that the opening faces the exterior edge of the one of the left and right cup to which it is attached.	The Crusher Crop's upper-edge patch opening is offset below the upper edge of the cup, crossing over a surface of the cup. The opening faces the exterior. 

U.S. Patent No. 9,808,036 (Claim 13)	Infringing Rabbit Product (Crusher Crop)
[13] A bra pocket system comprising the pocket bra of claim 11 and further comprising a non-padding item removably positioned within the pocket of at least one of the left and right cups.	Rabbit’s online marketing materials show the Crusher Crop pocket containing an item within one of its front pockets:
