Jeremy,
You should have received an email from Dropbox that will allow you to drop the files in there.
If that does not work, here is a link to it as well.

Dan, can you please work with Jeremy to get the step file for the 6 pack over to you. He asked for a dropbox link?
Thanks,
Andrew

Can you upload to dropbox and send us the link?
Thanks,
Mike

I have a .stp file of the six pack with a gathering conveyor. Can you ask Masaba for a large file transfer site and I will upload it?

I cannot save my Solidworks model as an Inventor model and the .stl file would be too big to handle.

Good morning Jeremy,

Iâ€™m still in South Dakota. I have another meeting at Masaba this morning. Will touch base with you this afternoon.

Have a great day,

Mike

Hi Jeremy,

Hope you had a good weekend. Can you send me a copy of your revised and updated specification sheet for the incline conveyor?

Thanks,

Mike
