[EXTERNAL EMAIL]

Counsel,

The Board authorizes Petitioner's request for a 5-page increase in the number of pages for Petitioner's opposition to Patent Owner's motion to amend. The additional 5 pages should address the issues identified in the email below. Patent Owner is authorized to include 5 additional pages in Patent Owner's reply to Petitioner's opposition.

No conference call is needed.

As neither party has requested a due date adjustment, the dues dates from the Scheduling Order remain the same.

Regards,

Andrew Kellogg,

Subject: IPR2024-01274 - Additional Pages Request

CAUTION: This email has originated from a source outside of USPTO. PLEASE CONSIDER THE SOURCE before responding, clicking on links, or opening attachments.

Dear Patent Trial and Appeal Board:

Petitioners in the above-referenced IPR seek the Board's authorization for a 5-page increase in the number of pages for Petitioners' opposition to Patent Owner's motion to amend. The extra pages are needed, because Petitioners anticipate relying on 5 or more new references to address the numerous additional claim limitations added in the substitute claims. Petitioners also anticipate raising Section 112 issues with the substitute claims.

Petitioners do not oppose Patent Owner receiving 5 additional pages for its reply to Petitioners' opposition.

The parties have conferred, and Patent Owner does not oppose this request on the condition that Patent Owner receives an additional 5 pages for its reply to Petitioner's opposition.

If the Board would like to schedule a call, the parties are available to discuss this request at the following times (all EDT):

9/2: 9-5

9/3: 9-5

9/4: 9-5

Regards,

Chad Walters
