The Parties in this case have reached a settlement that addresses this proceeding. Petitioners therefore contacted the Board on November 12, 2024, to inform the Board of the settlement and request authorization to file a motion to terminate this proceeding. The request to file a motion to terminate this proceeding was denied by the Board in its email of November 20, 2024, because Patent Owner has not filed its Mandatory Notices. The Board has indicated that, until the Patent Owner files its Mandatory Notices, no motion to terminate is authorized. The Board, however, authorized Petitioners to file a motion to withdraw its Petition. Accordingly, Petitioners hereby file this Unopposed Motion to Withdraw the Petition for Inter Partes Review in IPR2024-01279, and request withdrawal of the Petition and dismissal of the proceeding. Patent Owner does not oppose termination of the proceeding, and in fact, has required it as part of the settlement.

Pursuant to 35 U.S.C. § 317(b), 37 C.F.R. § 42.74, the Petitioners have concurrently filed the Settlement Agreement as Exhibit 1036. There are no other agreements, oral or written, between the Parties made in connection with, or in contemplation of, the termination of the proceeding. Petitioners have concurrently filed a request to treat the Settlement Agreement as confidential business information pursuant to 37 C.F.R. § 42.74(c), consistent with the provisions of the Agreement.

The Board should withdraw the Petition and dismiss this proceeding because the Petitioner has filed this motion to withdraw the Petition before the Office “has decided the merits of the proceeding.” 35 U.S.C. § 317(a).

The Parties also have reached a resolution as to all the disputes in this proceeding and as to the patent at issue.

Allowing withdrawal of the Petition and dismissing this proceeding would save significant further expenditure of resources by the Parties and the Board. Allowing withdrawal of the Petition would also further the purpose of inter partes review proceedings, which seek to provide an efficient and less costly alternative forum for patent disputes. Further, maintaining the proceeding would discourage further resolutions, as patent owners in similar situations would have a strong disincentive to resolve the dispute if they perceived that an inter partes review would continue regardless of a resolution.

For these reasons, allowing Petitioners to withdraw the Petition in IPR2024-01279 and dismissing the proceeding is appropriate.

Respectfully submitted,

Dated: November 20, 2024
