**Subject:** Re: 10X Genomics v. Curio Biosciences - Proposed Constructions for Curio's Proposed Terms

Counsel for Curio,

Pursuant to the Scheduling Order (D.I. 25, ¶ 11) and our agreed extension, Plaintiffs provide the following proposed claim constructions for the claim terms identified by Curio on July 24, 2024 (minus the terms dropped by Curio in Andrew Krause's August 13 email). Plaintiffs provide these constructions solely for purposes of this litigation. Plaintiffs reserve all rights including, e.g., to revise their proposed claim constructions as the meet and confer process proceeds and as discovery proceeds.

For each of Curio's proposed terms, Plaintiffs propose that no construction is necessary and the terms should each be given their plain and ordinary meaning.

Best,

**ROBERT GERRITY**
