IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF TEXAS
MARSHALL DIVISION

SPORTSCASTR INC. (d/b/a PANDA INTERACTIVE), Plaintiff, v. GENIUS SPORTS LTD., Defendant.	Civil Action No. 2:23-cv-00471-JRG JURY TRIAL DEMANDED

AMENDED P.R. 4-3 JOINT CLAIM CONSTRUCTION AND PREHEARING STATEMENT

Pursuant to P.R. 4-3 and the Court's First Amended Docket Control Order (Dkt. 36), Plaintiff SportsCastr Inc. (d/b/a Panda Interactive) ("PANDA") and Defendant Genius Sports Ltd. ("Genius Sports") (each a "Party" and referred to collectively as the "Parties") jointly file this amended joint claim construction and prehearing statement to reflect agreements reached after the parties filed their original P.R. 4-3 statement. *See* Dkt. 48.

The claim terms listed below occur in U.S. Patent No. 10,805,687 ("the '687 Patent"), U.S. Patent No. 10,425,697 ("the '697 Patent"), U.S. Patent No. 11,039,218 ("the '218 Patent") and U.S. Patent No. 11,871,088 ("the '088 Patent") (the '687, '697, '218 and '088 Patents, collectively, "the Asserted Patents"), which are asserted against Genius Sports.

I. P.R. 4-3(a)(1) Agreed Claim Constructions

The Parties agree the below terms should be construed as follows:

Term	Agreed Claim Construction
"and/or"	Plain and ordinary meaning, which is "either or both of the elements so conjoined" or,

IPR2024-01308
SportsCastr Inc. EX-2003

Term	Agreed Claim Construction
('697 Pat. cl. 7; '687 Pat. cl. 8; '218 Pat. cl. 26, 28, 30)	when there are more than two elements, "one or more of the elements so conjoined." '697 Patent at 56:22–39.
"at least one of" ('697 Pat. cl. 7, 8; '687 Pat. cl. 6, 8; '218 Pat. cl. 28, 30)	Plain and ordinary meaning, which when in reference to a list of one or more elements, should be understood to mean "at least one element selected from any one or more of the elements in the list of elements, but not necessarily including at least one of each and every element specifically listed within the list of elements and not excluding any combinations of elements in the list of elements." '697 Patent at 56:55–57:10.
"means for providing the first copy to the first viewer client device via a first video communication channel" ('697 Pat. cl. 27, 30; '687 Pat. cl. 27, 30)	Subject to § 112(f) Functions: providing the first copy to the first viewer client device via a first video communication channel. Structure: a media source that implements the algorithms described in FIGs. 2, 3, 4A-4B, 5A-5C, 6, 7, 8, 9A-9D, 11, and 12, and accompanying disclosures, including 9:16-10:43; 15:30-58; 18:7-19; 19:7-37; 21:21-36; 25:46-26:18; 27:30-52; 28:5-40; 30:54-31:22; 31:23-32:21; 32:22-38:46; 39:34-40:61; and 41:10-44:35 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with respect to at least one such embodiment, but not necessarily all such embodiments.
"means for periodically retrieving, via the Internet and from an event information	Subject to § 112(f). Functions: periodically retrieving, via the Internet and from an event information

Term	Agreed Claim Construction
provider, first event information germane to a first live sporting event" ('697 Pat. cl. 27)	provider, first event information germane to a first live sporting event. Structure: a control server that implements the algorithms described in FIGs. 2, 3, 15, and 16A-16B, and accompanying disclosures, including 9:16-10:43; 14:64-15:29; 17:24-45; 19:38-63; 21:37-52; 24:6-37; 27:5-27; 45:20-48:8 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with respect to at least one such embodiment, but not necessarily all such embodiments.
"means for retrieving, via the Internet, first event information germane to a first live sporting event" ('687 Pat. cl. 27)	Subject to § 112(f). Function: retrieving, via the Internet, first event information germane to a first live sporting event. Structure: a control server that implements the algorithms described in FIGs. 2, 3, 15, and 16A-16B, and accompanying disclosures, including 9:16-10:43; 14:64-15:29; 17:24-45; 19:38-63; 21:37-52; 24:6-37; 27:5-27; 45:20-48:8 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with respect to at least one such embodiment, but not necessarily all such embodiments.
"means for transmitting and receiving first chat information regarding the first live sporting event via at least one first chat/system event Internet communication channel that is different from the first video communication channel and the first event information channel"	Subject to § 112(f). Functions: transmitting and receiving first chat information regarding the first live sporting event via at least one first chat/system event Internet communication channel that is different from the first video

Term	Agreed Claim Construction
('687 Pat. cl. 28)	communication channel and the first event information channel. Structure: a socket of a socket server that implements the algorithms described in FIGs. 2, 3, 21A-21E, 22A-22B, 23A-23B, 24A-24B, and 25A-25C, and accompanying disclosures, including 5:29-44; 9:16-58; 19:64-20:61; 22:7-67; 23:46-24:5; 26:50-27:27; 29:44-30:29; 51:27-52:3; 52:47-62; 52:63-54:11 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with respect to at least one such embodiment, but not necessarily all such embodiments.
"means for transmitting and receiving first chat information regarding the first live sporting event video-based commentary included in the first broadcaster's live stream of digital content via at least one first chat/system event Internet communication channel that is different from the first video communication channel and the first event information communication channel" ('697 Pat. cl. 28)	Subject to § 112(f). Functions: transmitting and receiving first chat information regarding the first live sporting event video-based commentary included in the first broadcaster's live stream of digital content via at least one first chat/system event Internet communication channel that is different from the first video communication channel and the first event information communication channel, Structure: a socket of a socket server that implements the algorithms described in FIGs. 2, 3, 21A-21E, 22A-22B, 23A-23B, 24A-24B, and 25A-25C, and accompanying disclosures, including 5:29-44; 9:16-58; 19:64-20:61; 22:7-67; 23:46-24:5; 26:50-27:27; 29:44-30:29; 51:27-52:3; 52:47-62; 52:63-54:11 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with

Term	Agreed Claim Construction
	respect to at least one such embodiment, but not necessarily all such embodiments.
"means for updating the first score information and queueing an asynchronous message including the updated first score information for transmission on the first event information communication channel" ('697 Pat. cl. 29)	Subject to § 112(f). Functions: updating the first score information and queueing an asynchronous message including the updated first score information for transmission on the first event information communication channel. Structure: a control server that implements the algorithms described in FIGs. 2, 3, 10, 16A-16B, 17A-17B, and 22A-22B, and accompanying disclosures, including 24:6-37; 47:41-48:53; 52:47-62 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with respect to at least one such embodiment, but not necessarily all such embodiments.
"means for updating the first event information and queueing an asynchronous message including the updated first event information for transmission on the first event information communication channel" ('687 Pat. cl. 29)	Subject to § 112(f). Functions: updating the first event information and queueing an asynchronous message including the updated first event information for transmission on the first event information communication channel. Structure: a control server that implements the algorithms described in FIGs. 2, 3, 10, 16A-16B, 17A-17B, and 22A-22B, and accompanying disclosures, including 24:6-37; 47:41-48:53; 52:47-62 of the '697 Patent, and equivalents thereof. Where the specification describes alternative embodiments for performing the claimed function in a means-plus-function term, the term as properly construed requires the algorithms or structures described with respect to at least one such

Term	Agreed Claim Construction
	embodiment, but not necessarily all such embodiments.

II. P.R. 4-3(a)(2) Proposed Constructions for Terms in Dispute

A chart showing the Parties' proposed constructions or indefiniteness positions, with an identification of the intrinsic and extrinsic evidence supporting such constructions or positions is attached as Exhibit A.

III. P.R. 4-3(a)(3) Anticipated Length of Time for Claim Construction Hearing

Plaintiff anticipates 2 hours and Defendant anticipates 3 hours as the total length of time necessary for the claim construction hearing.

IV. P.R. 4-3(a)(4) Anticipated Witnesses

No Party will call any live witnesses at the claim construction hearing. As identified in Exhibit A, the Parties may submit expert declarations from various experts in support of certain claim construction proposals.

V. P.R. 4-3(a)(5) Other Issues to be Addressed

The Parties have not identified other issues to be addressed at a claim construction pre-hearing conference.

[3] PANDA objects to the inclusion of GS_00017670 (Beej's Guide to…Using Internet Sockets), GS_00017779, at 14-15, and Microsoft Computer Dictionary (Fifth Edition), at 498, including Defendant's expert Dr. Wicker's reliance on it in his declaration. These references were first provided by Genius Sports in a draft of the JCCS that was sent to PANDA approximately 90 minutes before the deadline to file the JCCS with the Court.

Genius Sports disagrees with PANDA's objection. PANDA similarly identified extrinsic evidence on the day of the deadline for filing the JCCS, PANDA had access to each of the references to which it now objects, and PANDA expressly intends to rely on the same extrinsic evidence or documents that cite that evidence. To the extent PANDA maintains its objection, Genius Sports likewise objects to PANDA's extrinsic evidence.
