**Subject:** IPR2024-01312 - Notice of Commission Review in ITC

**CAUTION:** This email has originated from a source outside of USPTO. **PLEASE CONSIDER THE SOURCE** before responding, clicking on links, or opening attachments.

Dear Honorable Board,

In light of the parties' obligation to keep the Board apprised of the ITC matter, the parties hereby notify the Board that the Commission has issued Notices that 1) the Commission has determined to review the final initial determination in part and 2) extend the target date for completion of the ITC investigation to March 30, 2026.

Specifically, the Commission has determined to review 1) the construction of the claim term "nested hinges," which does not appear in the '028 patent, and 2) whether the asserted claims of the Asserted Patents, including the '028 patent, are invalid under 35 U.S.C. § 103 for obviousness. The target date was extended in view of the shutdown of the Federal Government.

The parties also seek permission to submit the two Notices from the ITC referenced above as exhibits in this IPR proceeding.

Regards,  
**James Murphy**
