Claim Limitation	Exemplary Amazon Infringement
1[PRE]: A receiving apparatus configured to receive digital moving image contents from a provider of the digital moving image contents, the provider being commutatively connected to the receiving apparatus, the receiving apparatus comprising:	To the extent this preamble is limiting, the Amazon '968 Accused Products¹ each comprises a receiving apparatus configured to receive digital moving image contents from a provider of the digital moving image contents, the provider being commutatively connected to the receiving apparatus. For example, each of the Amazon '968 Accused Products include receiving apparatuses configured to receive digital moving image contents via the Prime Video² app from a provider of the digital moving image contents (i.e., Amazon's servers), the provider being commutatively connected to the receiving apparatus (e.g., via WiFi).

¹ “Amazon '968 Accused Products” hereinafter refers to the Amazon devices identified as infringing U.S. Patent No. 9,948,968 in NL Giken's First Amended Disclosure of the Accused Products served on October 4, 2024.

² The phrase “Prime Video” hereinafter refers to versions and apps of Amazon's Prime Video and Prime Video Life TV software as identified as infringing U.S. Patent No. 8,094,236 in NL Giken's First Amended Disclosure of the Accused Products served on October 4, 2024.

	 https://www.amazon.com/Amazon-Fire-Tablet-Family/b?ie=UTF8&node=6669703011 Get started What is Amazon Prime Video? Prime Video is a streaming video service by Amazon. Prime Video benefits are included with an Amazon Prime membership. With your membership, you can watch hundreds of TV shows and movies on your favorite devices. To get started, visit Amazon.com/primevideo, or download the Prime Video app on your mobile device. How do I use the mobile app? After you download the app, log in with your Amazon Prime or Prime Video account to watch. Browse available content and tap a title to watch it. On iOS and Android devices, you can also download a title by tapping the download icon from the video detail page. https://www.amazon.com/gp/video/splash/getTheApp In addition, Amazon induces customers to download the Prime Video app onto third-party devices. Amazon further induces customers to stream content using Prime Video via a web browser on third-party devices. Such third-party devices with the Prime Video app installed and/or that stream Prime Video via a web browser are receiving apparatus in the same way as described above.

[1A]: a processor executing instructions to designate a part of the digital moving image contents in the provider automatically or in response to a manual operation;	The Amazon ’968 Accused Products each include a processor executing instructions to designate a part of the digital moving image contents in the provider automatically or in response to a manual operation. For example, when a viewer plays content via the Prime Video app, the Amazon ’968 Accused Products designate a part (<i>e.g.</i>, an episode) of the digital moving image contents (<i>e.g.</i>, a TV series, any program). The designation may be automatic (<i>e.g.</i>, based on an episode ending) or may be based on a manual operation (<i>e.g.</i>, a viewer selecting to skip to the next episode). A processor within the Amazon ’968 Accused Products executes instructions to implement this designation. For example, selecting “Next Episode >” during viewing is a manual operation that results in a subsequent episode being designated:
