v.

IPR2025-00260 (Patent 8,604,678 B2)

Before KEVIN W. CHERRY and ANDREW L. NALVEN, *Administrative
Patent Judges*.

CHERRY, *Administrative Patent Judge*.

ORDER
Conduct of the Proceeding
37 C.F.R. § 42.5

On March 24, 2026, Patent Owner requested a conference call with the Board to seek authorization to file a motion for additional discovery. *See* Ex. 3001. Petitioner additionally provided a copy of the requests that Patent Owner provided them. *See* Ex. 3002. On March 26, 2026, Judges Cherry and Nalven conducted a conference call with the parties.

During the call, the panel authorized Patent Owner's motion for additional discovery. Patent Owner may file a 10-page motion for additional discovery by April 3, 2026. Patent Owner may attach its proposed requests as an appendix to its motion. Petitioner may file a 10-page opposition by April 17, 2026.

The panel advised the parties to review the Board's precedential opinion in *Garmin Int'l v. Cuozzo Speed Techs LLC.*, Case IPR2012-00001, Paper 26 (PTAB March 5, 2013) (precedential), for the standard for additional discovery. Any request for additional discovery must be justified under the factors articulated in *Garmin*. The panel reviewed Patent Owner's proposed requests and advised Patent Owner that, as written, the requests were too broad, and that, given the late stage of the proceeding and limited time remaining to decide these cases, Patent Owner should propose more narrowly tailored requests in its motion. The panel also requested that Petitioner to work with Patent Owner to narrow the disputes.

ORDER

Accordingly, it is

ORDERED that Patent Owner's request for authorization to file a motion for additional discovery is *granted*;

IPR2024-01357 (Patent 8,604,678 B2)

IPR2025-00260 (Patent 8,604,678 B2)

FURTHER ORDERED that Patent Owner may file a 10-page motion for additional discovery by April 3, 2026; and

FURTHER ORDERED that Petitioner may file a 10-page opposition to Patent Owner's motion by April 17, 2026.
