Subject: Combined Development Plan For Sept Release - in WIKI

Hello Seymour/ Tyron,

We have added a page called "Combined Development Plan For Sept Release" to Wiki.

At this point, we have planned for providing all the functionality requested by you for portal and studio as mentioned in 'iCharts Studio 0.3 (Beta)'. But, this is a working document and we would keep updating it as we progress with development and as things get clearer ;).

Please check for this in "Recent Changes" sections. I am facing some problem while adding it as one of item in home page.

Let us know if you have any questions.

Regards,
Girish
