I've shared a document with you called "Private - Beta (June 20 release) Stag...":
http://docs.google.com/Doc?id=dfc6mthg_10f5vhq3dw&invite=

It's not an attachment -- it's stored online at Google Docs. To open this document, just click the link above.

Hi Hans-Bernd, Gautam,

attached a link to the testing report for the June 20 Private Beta release for you to enter your feedback.

Objective is to test and screen the stage deployment before we upload it to Pilot as a next step. Please enter your feedback in your respective sections. Use red colour for show stoppers if any.

A show stopper is any critical bug that lets the application crash or the user loose his data. Glitches and improvement proposal should be also logged, we'll process those afterwards and put them into the ticket system for future improvements.

Goal is to green light switch to pilot on Friday, Jul 11, morning.

Best,
Seymour
