Hi Girish,

here my second attempt. Hope this works now. The one comment file is rather large, the other one smaller. The quality of the larger one of course better. Perhaps you can bring down the size somehow.

The ppt file shows the location of the audio comment. Please set it up on dev.

I will set up a ticket on the full requirement that we need to implement (which basically will be only about being able to upload audio files).

Best,
Seymour
