Subject: RE: Portal Gui

Hello Seymour,

We have received iCharts and Community listing pages from Tyron and we are integrating the same. However when we apply new header and footer to the site (unfortunately, the framework that is used for portal needs to apply same template of header and footer to all the pages) spoils the look on remaining pages.

Tyron suggested that we maintain two instances, one with old UI and other with new UI (whatever done). We are trying to do the same.

Yes, we will be porting new version of studio on to portal today evening.

Regards,
Girish Karachiwala

Subject: Portal Gui

Hi Girish,

just arrived in SF. Checked the portal, it appears a lot faster. But its still in old design - when will you have the new design up & running? I need to see something in the morning (which is your evening).....

Also, are you planning to link up the latest Dev version? The current one in the portal appears to be a older one.

Best,
Seymour
