

Cisco WebEx Productivity Tools

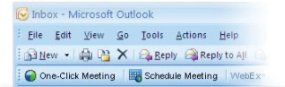

Start, schedule, and join WebEx Meetings sessions right from your favorite applications. New! Now for Mac OS!

Get [Productivity Tools](#) for other WebEx products.

Using WebEx Productivity Tools

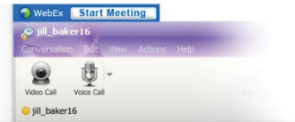

With Microsoft Office

Easily add a WebEx meeting to your Microsoft® Outlook meeting invitation. Or launch a meeting instantly using the WebEx button in your Microsoft Office applications.

With instant messenger

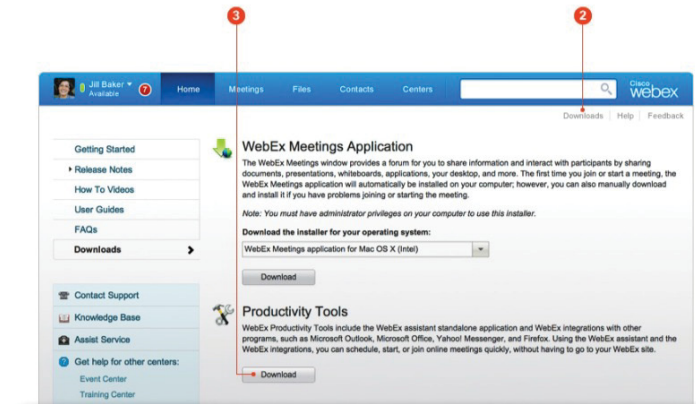

Turn an instant message into an instant meeting—using integrated audio and video. Click the **Start Meeting** button on your IM client and web browser, enter the meeting information, and you're ready to go!

How to get WebEx Productivity Tools

For WebEx Meetings accounts

1. Sign in to your WebEx Meetings account.
2. Click the Downloads link in the upper right.
3. Under Productivity Tools, select Download.
4. Your download should start automatically.

For other WebEx accounts (PC only)

1. Sign in to your WebEx account.
2. Select Meeting Center, Event Center, or Training Center (depending on your account).
3. Under Support in the left panel, select Downloads.
4. Under Productivity Tools, select Download now.
