

Unverferth model 3500

Seed Runner™ Tender

Exclusive self-loading design from the High IQ line*

There's no better way to improve the efficiency of a bulk seed-handling system than with the double-duty Unverferth Seed Runner™ tender.

The dual-compartment, model 3500 Unverferth Seed Runner tender not only delivers 350, 50-pound seed units (140 bushels on each side) direct to your planter or drill, its innovative, patented design allows it to fill itself! The cupped and cleated 6" tube conveyor gently carries seed at speeds up to 12 bushels per minute. An optional 8" tube conveyor unloads up to 18 bushels per minute. For self-loading, the conveyor rotates away from the unit.

The 18-foot steel tube with telescoping downspout means you'll fill the far corners of the largest planters and drills, and even bulk-fill planters, with ease. Dual hydraulic levers for conveyor control are located at both the hopper and downspout. An optional electronic on/off control is also available.

Unverferth model 3500

Seed Runner™ Tender: Exclusive self-loading design

- Unloading efficiency is enhanced by the Unverferth Seed Runner™ tender's patented conveyor design allowing it to rotate a full 180° for self-loading
- The hinged, two-stage telescoping downspout swings out of the way and locks back when filling the Seed Runner tender
- Dual viewing windows for easily monitoring contents during loading and unloading
- Powered by a 9 h.p. gas engine with optional electric start
- 62 inches of hydraulically operated vertical-height adjustment for easy movement into the loading or transport positions

- The conveyor base features rollers, pivots a full 180° and can be locked into place for unloading
- Easy-opening 5" x 6" doors with rubber funnel regulate grain flow into the conveyor for fast unloading and 100 percent seed use
- The top-mounted, 6-cubic-inch hydraulic motor pulls the belt forward, keeping it tight for the most efficient seed movement and reduced motor stress
- Hinged door at bottom of conveyor for complete cleanout

- The conveyor locks into the transport position at either the front or back of the tender
- Standard marker lights and reflective striping enhance transport safety
- Optional scale for verifying the quantity of seed delivered/loaded
- Steep-sloped sidewalls ensure fast and complete unloading
- Standard snug-fitting, 8-ounce, roll-over tarp protects contents from the weather and stays tightly locked, even at highway speeds

Mount the Unverferth Seed Runner tender on your own truck or trailer or choose the heavy-duty Seed Runner trailer:

- Heavy-duty steel construction
- Rubber-cushioned suspension and highway-rated tires for a smooth ride
- Triple axles with electric brakes
- Includes pintle hitch, lights, reflectors and transport chains for enhanced highway safety

Due to continuing improvements in the design and manufacture of Unverferth products, all specifications contained herein are subject to change without notice
