About this item

The Summilux-M Lens Hood 12465 is compatible with the Leica Summilux-M 35mm 1.4 ASPH Wide Angle Lens 11663. This Leica Digital Camera accessory protects the lens from unintentional fingerprints and the rain. Summilux-M Lens Hoods by Leica Camera should always be used because they provide effective protection for the lens against stray light and irradiation. Since the end of the lens is extended, this digital camera accessory from Leica provides some extra protection from accidental impact.
