Release notes

=== A number of known issues from the earlier firmware version have been resolved ===

Renewed the signing certificate for the button app to ensure continued security and functionality.

Fixed the issue where touch functionality was not working properly when a Mac laptop is shared with Clickshare using dual display.

=== Not all issues could be resolved yet, these are the ones that are remaining in this release ===

Sometimes Buttons can't connect if they are plugged in before the Base Unit has been fully started. Refer to KB8293

ClickShare WebUI for CS-100 and CSE-200 Base Units not opening in the Chrome browser on Windows 11, more information can be found on KB7472

=== Important notes to consider before upgrading ===

In order to start the ClickShare App on the Button automatically when plugging it in, version 1.20 of the ClickShare Windows Driver is needed.

v01.11.04 is a minimal version and does not allow downgrading to any version below v01.11.04 after installation.
