Dear Director and Board,

On June 19, 2026, Petitioner filed the attached notice withdrawing its motion for an ongoing royalty in a related district court litigation. While Petitioner does not agree, Patent Owner has relied heavily on this motion, submitted as supplemental information in five IPRs, as demonstrating secondary considerations of nonobviousness for its patents.

Petitioner requests authorization to either 1) file a 1-page, non-argumentative update that Petitioner has withdrawn the motion, or 2) file a motion to submit its notice of withdrawal as supplemental information. For Option (1), Petitioner's proposed update would include only the relevant background information, such as the cite to the filed notice and filing date, and would not include any arguments addressing the relevance of the notice.

This request concerns supplemental information in five IPRs:

- IPR2025-00491 (awaiting FWD)
- IPR2024-01436, -01437, -01438, & -01439 (awaiting Director Review Decision)

Patent Owner opposes the request for a one page paper because Petitioner has indicated it opposes Patent Owner being afforded the opportunity to be heard on this evidence. Patent Owner does not oppose Petitioner's request to file a motion to submit supplemental information, but opposes there entry of the supplemental information and will provide its arguments in its opposition to Petitioner's motion if Petitioner is allowed to submit a motion.

Best regards,
Kevin Greenleaf
