PROGRAMS to

Macworld's editors pick 15 software titles
that help you get the most out of your handheld.

A handheld is only as useful as the software it runs—otherwise, it's just an expensive paperweight. Since its introduction four years ago, Palm OS has amassed a rich following of developers, from amateur programmers to professional software publishers, who have created tens of thousands of programs for use on Palm and Handspring handheld organizers.

A peek at Web sites like PalmGear (www.palmgear.com) or the Tucows PDA site (<http://pda.tucows.com/palm/>) reveals tons of freeware and shareware, ranging from multifunction clocks to strategy games. Instead of trying to pick the best programs—a daunting task that would surely mean missing out on a lot of worthy software—we asked *Macworld's* Palm-using editors to choose some of their favorite apps for everything from productivity and organization to travel and games.

Keep Connected

AvantGo, AvantGo, <http://avantgo.com>; free

Want to carry Web pages with you on your Palm? There's no easier way than the free AvantGo, which connects to the Web sites you've chosen to read and updates your Palm with their contents every time you HotSync. Even graphics and hyperlinks transfer over, making AvantGo a great way to read your favorite publications when you're on the go.

MultiMail Pro, Actual Software, www.actualsoft.com; \$40

If you've got a modem on your Palm, you can check multiple POP or IMAP e-mail accounts from the road with MultiMail Pro. It offers message filtering, multiple mailboxes, and other features we've come to expect from Mac e-mail programs. The MultiMail Conduit (\$30; \$20 with purchase of MultiMail Pro) can HotSync either MultiMail or the built-in Palm mail application with your Outlook Express, Claris Eudora, or Eudora mailboxes.

Get Organized

Actioneer 2.0 for Palm Handhelds, Actioneer, www.actioneer.com; \$20

Billed as "the easiest way to get information into your Palm organizer," Actioneer provides a notepadlike way to enter information on your handheld and then lets you include the note in any of the four native Palm utilities.

BrainForest Mobile Edition 2.1, Aportis Technologies, www.aportis.com; \$30

Those of us who relish the organizing capacities of an outline will certainly appreciate BrainForest, which gives you the ability to group action items (notes or to-dos) under common headings of your own choosing and then export those items to the Palm's native to-do list or notepad.

JFile Pro 1.0d, Land-J Technologies, www.land-j.com; \$25

FileMaker Pro won't run on your Palm, but this impressive database program will. Add FMSync Software's FMSync for JFile Pro (\$38, www.fmsync.com), and you can even HotSync JFile to your FileMaker databases.

Launch 'Em 2, Synergy Solutions, www.synsolutions.com; \$10

Want to give your Palm a more Mac-like feel? This cheap utility is the answer. It replaces your Applications program with a multi-tabbed, drag-and-drop interface—complete with Trash Can!

TealLock 2.10E, TealPoint Software, www.tealpoint.com; \$12

Don't leave your personal information unprotected. TealLock is a clever security program for your PDA that picks up where

Tetris Who? SameGame will have you dreaming about blocks—over and over again.

Quick Change Converter lets you switch between measurements with a tap of your stylus.

Dang. Forgot the racing stripes.

But that's about it, in terms of souped-up, sports-car qualities. Introducing TurboRing™, the world's first trackball with patented Scroll Ring™ technology and three programmable buttons. Now, you can blast through long documents. And whiz through Web pages. All in sheer, ergonomic bliss. The idea of comfort and handling at high speeds is coming to a whole new Autobahn. Your desktop. For more information, visit www.turboring.com. And please, buckle up.
