EveryMac.com has been updated with preliminary specs, identifiers and global prices on the iPhone 16 (Plus, Pro, and

Apple iPhone 6 (GSM/North America/A1549) 16, 32, 64, 128 GB* SpecsIdentifiers: iPhone 6 - MG4P2LL/A* - [iPhone7,2](#) - [A1549](#) - [2816*](#)[All iPhone Models](#) | [All 2014 Models](#) | [Dynamically Compare This iPhone to Others](#)Download: [PDF Manual](#)

Please note that this "GSM" A1549 iPhone 6 model -- which is compatible with LTE bands 1, 2, 3, 4, 5, 7, 8, 13, 17, 18, 19, 20, 25, 26, 28, and 29) -- is intended for the North American market (including AT&T and T-Mobile in the US; Bell, Rogers, Telus as well as affiliate brands in Canada; and Telcel in Mexico). It was first discontinued on September 7, 2016, but a 32 GB variant was re-introduced as an AT&T pre-paid GoPhone on or around March 21, 2017 and discontinued again on or around September 12, 2018.

The iPhone 6 models, regardless of network compatibility, have a 4.7" (diagonal) widescreen multi-touch IPS LED-backlit 1334x750 native resolution (326 ppi) "Retina HD" display, dual cameras -- a rear 8 megapixel, 1080p "iSight" camera with 1.5 micron pixels, an

f/2.2 aperture, and "autofocus with Focus Pixels" (phase detection autofocus capability) and more as well as a front 1.2 megapixel, 720p "FaceTime" camera.

The iPhone 6 originally was available in three metallic color options -- "silver," which has a white glass front and a silver colored aluminum back (pictured); "gold," which has a white glass front and a gold colored aluminum back; and "space" gray, which has a black glass front and a medium toned gray aluminum back, but the re-introduced 32 GB variation only was available in "space" gray. Regardless of color, each uses a "unibody" design with gently rounded sides reminiscent of the earlier [iPod touch 5th Gen](#), but with glass that beautifully curves toward the edges for a "completely smooth and continuous surface." It also includes the "Touch ID" fingerprint sensor embedded in the "home" button.

This iPhone 6 model is powered by a 1.4 GHz 64-bit "Apple A8" processor and has 1 GB of LPDDR3 RAM and 16 GB, 32 GB, 64 GB, or 128 GB of flash storage (32 GB option introduced on or around March 21, 2017). It also supports 802.11a/b/g/n/ac Wi-Fi, Bluetooth 4.0/4.2, LTE (4G), and NFC for Apple Pay financial transactions. It has a bottom-mounted headphone jack and uses a "Lightning" port to connect to a Mac, PC, dock, or power adapter.

Apple estimates that the iPhone 6 provides "up to" 50 hours of audio playback, 14

hours of talk time on 3G, 10 hours of Internet use on 3G, 10 hours of Internet use on LTE, 11 hours of Internet use on Wi-Fi, 11 hours of video playback and 250 hours of standby time.

In the US, this "GSM" A1549 iPhone 6 originally was available locked to -- and subsidized by -- AT&T with 16 GB, 64 GB, or 128 GB of storage, for US\$199, US\$299, or US\$399, respectively, with a two-year contract. Unlocked and contract free (but provided with a T-Mobile Nano SIM), it was originally available for US\$649, US\$749, or US\$849. On September 9, 2015, Apple discontinued the gold color option and 128 GB capacity and dropped the price of the remaining 16 GB and 64 GB capacity options in silver and space gray to US\$99 and US\$199 with a two-year contract or US\$549 or US\$649 unlocked and contract free. A variety of carrier subsidized and lease options also were available. This model was discontinued altogether on September 7, 2016 but re-introduced on or around March 21, 2017 in Space Gray with 32 GB of storage on AT&T GoPhone for US\$299.99 plus US\$45 for service (US\$344.99 total). It was discontinued again on or around September 12, 2018

E

<u>Connectivity:</u>	USB	<u>Ports:</u>	Lightning, Headphone
<u>Case Type:</u>	Handheld	<u>Form Factor:</u>	iPhone 6
<u>Housing Color:</u>	Metallic*	<u>Controller:</u>	Multi-touch
<u>Built-in Display:</u>	4.7" Color <u>Display Resolution:</u> 1334x750 (326 ppi) The iPhone 6 models have a 4.7" (diagonal) widescreen multi-touch IPS "Retina HD" display with a 1334x750 native resolution at 326 ppi. Apple also reports a 1400:1 typical contrast ratio, 500 cd/m2 max brightness, "full sRGB" standard support, and "dual-domain pixels" which are said to provide a wider viewing angle than earlier iPhone devices.		
Details:	In the UK, site sponsor ALB Repair offers component-level logic board repair, display repair, and other repair services for this iPhone. No fix, no fee! In Spain, site sponsor iRepairs provides affordable repair and data recovery services. In-person and by mail repair services include the display, motherboard, charging port, and more for this iPhone.		
<u>Standard Wireless:</u>	802.11a/b/g/n/ac*	<u>Standard Bluetooth:</u>	4.2**
Details:	*Apple notes that the iPhone 6 models support 802.11a/b/g/n/ac, and specifically 802.11ac with speeds up to 433 Mbps. This specific iPhone 6 -- the A1549 "GSM" model intended for the North American market (AT&T and T-Mobile in the US and Bell, Rogers, Telus, and affiliate brands in Canada), officially supports "UMTS/HSPA+/DC-HSDPA (850, 900, 1700/2100, 1900, 2100 MHz), GSM/EDGE (850, 900, 1800, 1900 MHz), [and] LTE (Bands 1, 2, 3, 4, 5, 7, 8, 13, 17, 18, 19, 20, 25, 26, 28, 29)." Officially, it does not support CDMA, although users have discovered that it works properly with a Verizon CDMA SIM card, as well. **When first shipped, the iPhone 6 supported Bluetooth 4.0. When releasing iOS 9, Apple upgraded the Bluetooth capability to Bluetooth 4.2, but it only supports improved privacy rather than increased speed.		
<u>Cell Network:</u>	GSM/LTE*	<u>Camera:</u>	8.0 Megapixels**
<u>Battery Type:</u>	Lithium Ion	<u>Battery Life (Music):</u>	50 Hours
<u>Battery Life (Voice):</u>	14 Hours*	<u>Standby Time:</u>	250 Hours
Details:	*Apple reports that the iPhone 6 provides "up to" 50 hours of audio playback, 14 hours of talk time on 3G, 10 hours of Internet use on 3G, 10 hours of Internet use on LTE, 11 hours of Internet use on Wi-Fi, 11 hours of video playback and 250 hours of standby time. Also see: Why does my iPhone run out of power so quickly? How can I conserve battery life?		
<u>Apple Order No:</u>	MG4P2LL/A*	<u>Apple Subfamily:</u>	iPhone 6
Details:	*MG4P2LL/A is the order number for the 16 GB configuration, in silver, on AT&T. The 64 GB and 128 GB configurations, in silver, also on AT&T are MG4X2LL/A and MG4U2LL/A. The remaining AT&T configurations with 16 GB, 64 GB, and 128 GB of storage, respectively, in gold are MG4Q2LL/A, MG502LL/A, and MG4V2LL/A; and in "space" gray are MG4N2LL/A, MG4W2LL/A, and MG4R2LL/A. The 16 GB, 64 GB, and 128 GB configurations "contract free" on T-Mobile are MG552LL/A, MG5C2LL/A, and MG582LL/A, respectively, in silver; MG562LL/A, MG5D2LL/A, and MG592LL/A, respectively, in gold; and MG542LL/A, MG5A2LL/A, and MG572LL/A, respectively, in "space" gray.		
<u>Apple Model No:</u>	A1549 (EMC 2816*)	<u>Model ID:</u>	iPhone7,2
Details:	Please note that these identifiers refer to more than one model. *Additionally, the EMC number is not externally listed on the device so it cannot be used readily for identification. Also see: All iPhones with the A1549 Model Number, the 2816* EMC Number, and the iPhone7,2 Model Identifier.		

<u>Pre-Installed OS:</u>	iOS 8.0 (12A365)	<u>Maximum OS:</u>	iOS 12.5.5*
Details:	This model is fully supported by the last version of iOS 9 as well as the last version of iOS 10 with the exception of the minor Raise to Wake feature. It is supported by iOS 11 with the exception of the minor "Appointment confirmation" feature. It is supported by the last version of iOS 12, as well, with the exception of the Memoji, Camera Effects, ARKit 2, and Siri Suggestions features. It is not supported by iOS 13 or subsequent versions of the iOS. Also see: <u>Which</u> iPhone, iPod touch, and iPad models support iOS 12? Do some models "partially" support iOS 12? Which ones?		
<u>Dimensions:</u>	5.44 x 2.64 x 0.27*	<u>Avg. Weight:</u>	4.55 oz. (129 g)
<u>Mac Support:</u>	Mac OS X 10.6.8*	<u>Windows Support:</u>	Windows XP SP3/Vista/7/8
<u>Audio Support:</u>	Apple reports that the iPhone 6 supports "AAC (8 to 320 Kbps), Protected AAC (from iTunes Store), HE-AAC, MP3 (8 to 320 Kbps), MP3 VBR, Audible (formats 2, 3, 4, Audible Enhanced Audio, AAX, and AAX+), Apple Lossless, AIFF, and WAV."		
<u>Photo Support:</u>	Apple does not formally specify photo formats for the iPhone 6. However, it can sync photos in JPEG, BMP, GIF, TIFF, PSD (Mac only), and PNG formats, from iTunes and iCloud.		
<u>Video Support:</u>	Apple reports that the iPhone 6 supports "H.264 video up to 1080p, 60 frames per second, High Profile level 4.2 with AAC-LC audio up to 160 Kbps, 48kHz, stereo audio in .m4v, .mp4, and .mov file formats; MPEG-4 video up to 2.5 Mbps, 640 by 480 pixels, 30 frames per second, Simple Profile with AAC-LC audio up to 160 Kbps per channel, 48kHz, stereo audio in .m4v, .mp4, and .mov file formats; Motion JPEG (M-JPEG) up to 35 Mbps, 1280 by 720 pixels, 30 frames per second, audio in ulaw, PCM stereo audio in .avi file format." It also supports AirPlay Mirroring and video out to the Apple TV 2nd Gen or later as well as video mirroring and video out "up to" 1080p through the Lightning Digital AV Adapter and the Lightning to VGA Adapter. Ships with "Apple EarPods [headphones] with Remote and Mic, Lightning to USB cable, [and] a USB power adapter."		
<u>Incl. Accessories:</u>	In the US (and many other countries), site sponsor <u>Other World Computing</u> sells <u>inexpensive headphones</u>, cases and other accessories for <u>this iPhone</u>. Also see: <u>What</u> is the best external keyboard for the iPhone?		
<u>Original Price:</u>	US\$199, US\$299, US\$399*	<u>Est. Current Retail:</u>	US\$50-US\$100
Details:	*In the US, this iPhone 6 model originally was available for US\$199, US\$299, or US\$399 with 16 GB, 64 GB, or 128 GB of storage, respectively, locked to AT&T with a two-year contract. Contract free on T-Mobile, it originally was available for US\$649, US\$749, or US\$849. On September 9, 2015, Apple discontinued the gold color option and 128 GB capacity and dropped the price of the remaining 16 GB and 64 GB capacity options in silver and space gray to US\$99 and US\$199 with a two-year contract or US\$549 or US\$649 unlocked and contract free. A variety of carrier subsidized and lease options also were available. This iPhone 6 was discontinued altogether on September 7, 2016 but then re-introduced with 32 GB of storage in Space Gray as a pre-paid AT&T GoPhone on or around March 21, 2017 originally for US\$299.99 plus US\$45 for service (US\$344.99 total). It was discontinued again, for the last time, on or around September 12, 2018. Photo Credit: Apple, Inc.
