Subject: IPR2024-01445 Patent Owner power of attorney and mandatory notices
Date: Friday, February 7, 2025 1:29:18 PM

Counsel,

A review of the record indicates that both Patent Owner's Mandatory Notices (paper 4) and Power of Attorney (paper 5) are defective. Updated powers of attorney and mandatory notices must be filed immediately.

Mandatory notices must: identify each real party-in-interest, identify any other judicial or administrative matter that would affect, or be affected by, a decision in the proceeding, identify lead and back-up counsel, and must identify service information. See 37 C.F.R. § 42.8. Paper 4 identifies both counsel and service information, however, the real party-in-interest and related matters sections are missing.

The power of attorney identifies both lead and back-counsel and confers power to act on behalf of the patent owner with respect to the instant *inter partes* review, however, it is unsigned. Powers of attorney must be signed by the patent owner in order to be valid. 37 C.F.R. § 1.32(b)(4)

Regards,

Andrew Kellogg,
