No more wet slippers

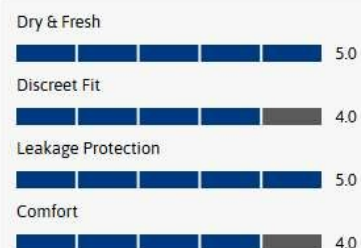

9 months ago

These are nicely made and comfortable to wear. They do soak up urine very quickly and very well. After trying other brands and ending up with urine filling my slippers as I tried to make it to the loo in the middle of the night, I was delighted that to find these soaked up everything - my legs and slippers remained dry. They are not quite as long as I would have liked (given they are advertised as long) but I guess you can't have everything.

Love that these pads give me freedom.

8 months ago

Tena pads are most suitable for my needs. I've tried extra long as well as long and made my choice. I also use the large/large pads for overnight but once they are finished I'll only use the long. I was amazed with the promptness of delivery. Only two days from ordering. Well

done all of you.

A friend recommended this product to me. I love them, they meet all my needs in an incontinence pad. Excellent length, perfect width and not bulky, but super absorbent. Gives me the confidence to socialise without worrying over leakages. Highly recommend them.

The Pads I chose provide all I need for to keep me dry when I need them, they are comfortable to wear,, they do not leak from the sides and keep me dry till I need to change them. I am very happy with the product. That is the reason I continue to buy them.

Confused in relation to size as concerned about being too long but fits well and able to soak up problem leaks well Gives more confidence to be out and about with this horrible condition

NEARLY 5 STARS...

a year ago

4 stars. The only reason for 4 not 5, is that they could be a little wider towards the front to help avoid little spills.
