

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

Application Data Sheet 37 CFR 1.76		Attorney Docket Number	W1186/20010
		Application Number	
Title of Invention	PARALLEL CHANNEL POSTING AND CROSS CHANNEL COMMUNICATION		
The application data sheet is part of the provisional or nonprovisional application for which it is being submitted. The following form contains the bibliographic data arranged in a format specified by the United States Patent and Trademark Office as outlined in 37 CFR 1.76. This document may be completed electronically and submitted to the Office in electronic format using the Electronic Filing System (EFS) or the document may be printed and included in a paper filed application.			

Secrecy Order 37 CFR 5.2:

☐	Portions or all of the application associated with this Application Data Sheet may fall under a Secrecy Order pursuant to 37 CFR 5.2 (Paper filers only. Applications that fall under Secrecy Order may not be filed electronically.)

Filing By Reference:

Only complete this section when filing an application by reference under 35 U.S.C. 111(c) and 37 CFR 1.57(a). Do not complete this section if application papers including a specification and any drawings are being filed. Any domestic benefit or foreign priority information must be provided in the appropriate section(s) below (i.e., "Domestic Benefit/National Stage Information" and "Foreign Priority Information").

For the purposes of a filing date under 37 CFR 1.53(b), the description and any drawings of the present application are replaced by this reference to the previously filed application, subject to conditions and requirements of 37 CFR 1.57(a).

Publication Information:

☐ Request Early Publication (Fee required at time of Request 37 CFR 1.219)

☐ **Request Not to Publish.** I hereby request that the attached application not be published under 35 U.S.C. 122(b) and certify that the invention disclosed in the attached application **has not and will not be** the subject of an application filed in another country, or under a multilateral international agreement, that requires publication at eighteen months after filing.

Representative Information:

Representative information should be provided for all practitioners having a power of attorney in the application. Providing this information in the Application Data Sheet does not constitute a power of attorney in the application (see 37 CFR 1.32). Either enter Customer Number or complete the Representative Name section below. If both sections are completed the customer Number will be used for the Representative Information during processing.

Domestic Benefit/National Stage Information:

This section allows for the applicant to either claim benefit under 35 U.S.C. 119(e), 120, 121, 365(c), or 386(c) or indicate National Stage entry from a PCT application. Providing benefit claim information in the Application Data Sheet constitutes the specific reference required by 35 U.S.C. 119(e) or 120, and 37 CFR 1.78.

When referring to the current application, please leave the "Application Number" field blank.

Foreign Priority Information:

This section allows for the applicant to claim priority to a foreign application. Providing this information in the application data sheet constitutes the claim for priority as required by 35 U.S.C. 119(b) and 37 CFR 1.55. When priority is claimed to a foreign application that is eligible for retrieval under the priority document exchange program (PDX)ⁱ the information will be used by the Office to automatically attempt retrieval pursuant to 37 CFR 1.55(i)(1) and (2). Under the PDX program, applicant bears the ultimate responsibility for ensuring that a copy of the foreign application is received by the Office from the participating foreign intellectual property office, or a certified copy of the foreign priority application is filed, within the time period specified in 37 CFR 1.55(g)(1).

Additional Foreign Priority Data may be generated within this form by selecting the **Add** button.

Statement under 37 CFR 1.55 or 1.78 for AIA (First Inventor to File) Transition Applications

☐ This application (1) claims priority to or the benefit of an application filed before March 16, 2013 and (2) also contains, or contained at any time, a claim to a claimed invention that has an effective filing date on or after March 16, 2013.

NOTE: By providing this statement under 37 CFR 1.55 or 1.78, this application, with a filing date on or after March 16, 2013, will be examined under the first inventor to file provisions of the AIA.

		Application Number	
Title of Invention	PARALLEL CHANNEL POSTING AND CROSS CHANNEL COMMUNICATION		

Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

☐ A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

☐ B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

Applicant Information:

Providing assignment information in this section does not substitute for compliance with any requirement of part 3 of Title 37 of CFR to have an assignment recorded by the Office.

Applicant	1	Remove
If the applicant is the inventor (or the remaining joint inventor or inventors under 37 CFR 1.45), this section should not be completed. The information to be provided in this section is the name and address of the legal representative who is the applicant under 37 CFR 1.43; or the name and address of the assignee, person to whom the inventor is under an obligation to assign the invention, or person who otherwise shows sufficient proprietary interest in the matter who is the applicant under 37 CFR 1.46. If the applicant is an applicant under 37 CFR 1.46 (assignee, person to whom the inventor is obligated to assign, or person who otherwise shows sufficient proprietary interest) together with one or more joint inventors, then the joint inventor or inventors who are also the applicant should be identified in this section. Signature:

NOTE: This Application Data Sheet must be signed in accordance with 37 CFR 1.33(b). However, if this Application Data Sheet is submitted with the **INITIAL** filing of the application and either box A or B is not checked in subsection 2 of the "Authorization or Opt-Out of Authorization to Permit Access" section, then this form must also be signed in accordance with 37 CFR 1.14(c).

This Application Data Sheet **must** be signed by a patent practitioner if one or more of the applicants is a **juristic entity** (e.g., corporation or association). If the applicant is two or more joint inventors, this form must be signed by a patent practitioner, **all** joint inventors who are the applicant, or one or more joint inventor-applicants who have been given power of attorney (e.g., see USPTO Form PTO/AIA/81) on behalf of **all** joint inventor-applicants.

See 37 CFR 1.4(d) for the manner of making signatures and certifications.

This collection of information is required by 37 CFR 1.76. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 23 minutes to complete, including gathering, preparing, and submitting the completed application data sheet form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. **SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.**

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether the Freedom of Information Act requires disclosure of these records.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspections or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

#mentions™ (pronounced hash-mentions)

/mentions™ (pronounce slash-mentions)

a.k.a. Parallel Channel Posting

&

Cross Channel Communication

Parallel Channel Posting -- a.k.a #mentions (pronounced hash mentions) a.k.a /mentions (slash mentions)

Sending a message to more than one channel in parallel (care for a slight modification to the message whether cosmetic, in body content or meta data (e.g., the post envelope may be different depending upon who received the message, what channel its in, whether or not the message contains detailed info identifying common channels by actual name or is substituted with "private" or the like to hide certain private channel names from non-subscribers but revealing it to common subscribers)

- Said message in said one or more of said plurality of parallel channels is visible to at least one of said plurality of users in each of said [two] or more of said plurality of parallel channels (i.e, there could be a way to limit who in the parallel channel/s sees the post) [has to appear in more than one channel or it's simply a regular message post]

Cross Channel Posting

Sending a message to a channel or channels other than [excluding] the channel in which the message is being created.

- Said message in said one or more of said plurality of parallel channels is visible to at least one of said plurality of users in at least one of said plurality of channels but excluding the channel in which said original message was created (i.e, there could be a way to limit who in the parallel channel/s sees the post)

-
- Said original message is posted to at least one of said plurality of channels excluding said channel in which said original message was created
 - One or more of said plurality of users in said plurality of channels may respond to said originating message.
 - Can be configured to limit if (no one) and if so (who) which of the one or more of said plurality of users in said plurality of channels may respond to said originating message.
 - A message in response to said originating message from one or more of said plurality of users in said one or more of said parallel channels in response to said originating can be sent to said originating message sender in said originating channel.
 - Said responding message may be immediately visible to all of the plurality of users in said originating channel and/or one or more of said parallel channels or may be visible first to said sender of said original message [in said originating channel]. **If said reply message is made visible first to said creator of said original message then said creator may choose to keep said response private or make said reply visible to at least one of the plurality of users in said originating channel or to at least one of the plurality of users in at least one of the said parallel channels.** (The previous sentence appearing in bold) is slight variation of our current SHARING patent issued 1/30/18 - review for language used and accepted by the PTO)

-
- Said original message creator may send a message to channels that he/she is a part of or has been invited to join
 - Said original message creator may send a message to any known or discovered (directory) channel whether or not he/she is a current subscriber or has been invited to join said known or discovered channel/s.
 - To assist one or more of the plurality of users in one or more of said plurality of channels to ascertain that said originating message is of a different nature from "normal" messages, (i.e., a "#mention") said original message sent in parallel to said plurality of channels may be presented to one or more of said plurality of users in one or more of said plurality of channels in which it is placed in parallel in such a way as to stand out (i.e., the message is differentiated, boxed, bolded, font change, color, size, etc.) from the other message types in the said message channel.
 - In the case where one or more of said plurality of users in said plurality of channels is permitted to send a reply to said original message creator, said reply to said original message may be initiated through an interaction with the display (e.g., verbal, long press, swipe, click, pop-up menu)

US 10,101,000 B2

- Said response can be displayed in parallel in one or more of said plurality of channels.
- Said response can be displayed in parallel in one or more of said plurality of channels and grouped together to retain context.
- Responses to said response (responses to responses) to said original message from one or more of said plurality of users in said plurality of channels may respond to said originating message can be displayed in parallel in one or more of said plurality of channels and grouped together to assist in retaining context.
- When combined with a Reference (previously patented) a prior message can be “brought along” and posted along with the further message
- Attachments can be included/linked/attached to the multi-channel post.

Also:

Bundles

- Spawn a new channel from a collection of messages from one or more channels
- Create a Bundle from a collection of messages from more than one channel
- Nested Bundles

e.g., Private Direct Message Channel

Note that in each of the screens shown on this page, the user is “in” i.e., viewing and/or posting messages in an isolated group. In this example the channel is named “Three Amigos”.

#mention™ (hash-mention)

In this example, typing “#” reveals a menu that displays channel [names]. The menu can be, for example, a single inclusive channel “pick-list” or can be, for example, a refined list based on user input. In the example shown below, as the user continues to type the list is refined based on the user’s input. At anytime the user may select or enter one [or more] channel names (e.g., group channel or Direct message channel names. This step can be repeated if/as necessary.

In the example shown below, a “reference object” happens to be included and shown. In this example, the hash-mentioned message being crafted will be linked to and reference an earlier message that appeared in [this] channel.

This screen shows the posted #mention message along with the reference object. The posted messages may or may not include information that conveys supplemental data such as the names of other channels that the message has been shared with (sent to). The supplemental data can be different based upon who is viewing the message and in which channel it is being reviewed (i.e., the circumstances under which the message is being seen). (For example, a message sent from channel 1 to channel 2 may for some subscribers display the name of the “from” channel but in other cases, hide the name of channel [1] and instead merely display “private channel” or not include the from channel name at all.

FIGURE 25A

FIGURE 25B

FIGURE 25C

FIGURE 25D

Message Poster (MarcCohen) View
In the channel "Three Amigos"
in which the hash mention was created

This screen shows the posted #mention message along with the reference object. The posted messages may or may not include information that conveys supplemental data such as the names of other channels that the message has been shared with (sent to). The supplemental data can be different based upon who is viewing the message and in which channel it is being reviewed (i.e., the circumstances under which the message is being seen). (For example, a message sent from channel 1 to channel 2 may for some subscribers display the name of the "from" channel but in other cases, hide the name of channel [1] and instead merely display "private channel" or not include the from channel name at all.

FIGURE 25D

FIGURE 25E

- In one exemplary embodiment of the present invention, the entire message including the "shared with" channel names will be displayed in the creators own view of the hash mention message while everyone else will only be presented with the name of the channel if the channel recipient is also a common member of the #mentioned channel/s, otherwise show "+2 channels"

Message Recipient/s View In the shared with channels in which the hash mention was Shared

User initiates a response to the #mentioned message by, e.g., selecting a [visible] prompt, interacting with a menu appearing by, for example, a long press, verbal command, or by some other means.

FIGURE 25J

FIGURE 25K

- In one exemplary embodiment of the present invention, replies to a hash mention from users in another channel can be presented first (and only) to the creator of the original message post in the original channel from which the hash mention was sent. In this example the reply is kept private unless and until the original sender of the original message has decided to share the reply (all or in part) with others (or or some) in the original channel.

- In one exemplary embodiment of the present invention, replies to a hash mention from a user from another channel is shown to all without further intervention on the part of the original sender (for example, automatically shared)

In this example, indicates a message sent from this channel

In this example, indicates a message sent from a channel other than this channel

This response message remains "private" and visible only to the creator of the message that spawned this response message unless/or until shared (in whole or in part) with at least one other of the plurality of users in this [and/or other] channel/s.

Original Message Sender's View of Reply/replies to Hash Mention (from users in another/other channels)

FIGURE 25L

FIGURE 25M

- In one exemplary embodiment of the present invention, replies to a hash mention from users in another channel can be aggregated and presented together to the the creator of the original message post in the original channel from which the hash mention was sent. In this example the reply/replies is/are kept private unless and until the original sender of the original message has decided to share a reply (all or in part) with others (or or some) in the original channel. The views depicted in Figure 25L and 25M can be combined or implemented separately or exclusively.

- In one exemplary embodiment of the present invention, the sender or any person with which the hash mention reply has been shared, can further reply, which reply can be shared with all or a subset of others who have received the initial hash message post and/or a subsequent reply.

Cross Channel Communication

Move a message

Cross Channel Message Move

A message can be quickly and easily moved from channel A to Channel B (or to Channel B and Channel (n) i.e., more than one channel).

Cross Channel Message Move

The message can be moved to one or more other channels. (It can be removed from the current channel or alternatively simply copied to an additional channel or channels)

Optionally the fact that a message has been moved could be included in the channel

Message is moved Sales channel into the Executive Team Channel. In this example the time stamp is updated to reflect the date/time the message was moved.

Bundles

BUNDLE CREATE

BUNDLE CREATE

BUNDLE CREATE

Swipe, long press, verbal command or other method of selection

User selects the **Bundle** option to initiate the Bundle creation process

BUNDLE CREATE

A method of message selection is provided. In this example a circle check box is presented and the user taps an empty circle to indicate selection of a message to be included in the Bundle or can taps again to deselect a previously selected message. In other embodiments, the message itself could be tapped/selected and the background color could change. Additionally a method could be provided to select a range of consecutive messages.

The design below shows an additional option of allowing a user to spawn a new channel directly. The user would identify the messages from the one or more channels and the select "Spawn New Channel". If selected, a dialog would be presented asking the user to Name the New channel. In this example a new channel would be created that initially contains the selected messages.

BUNDLE CREATE

Quick Share

The User selected Quick Share

• After tapping on Quick Share the user is shown this Channel Selection screen.

BUNDLE CREATE

Quick Share

Bundles can be shared in parallel and across channels

BUNDLE CREATE

Save As

New Bundle

- If user presses return (and if the text entered is not an exact match to an existing Bundle name) then Save As ...
- User may enter text. If the user enters "Health" for example, the results will include all Bundle names that include the character string "Health"

- A user may wish to name a Bundle something that is a subset of an existing Bundle name. As soon as the user begins typing the user will see a list of all existing Bundles that incorporate the typed character sequence, however it is possible that the user wishes to name a New Bundle something that happens to be a subset an existing Bundle. This example shows that the user has the option of pressing "enter" in which case a New Bundle named "Health" is created or the user could tap on any of the Existing Bundles in the list that contain the text "Health", in which case the selected Bundle will be Appended.

BUNDLE CREATE

Save As

- Show "Save As: [Bundle Name]"
- Press "+" to restart Save As/Append To process

Save As

BUNDLE CREATE

"F" Intentionally included again as the starting point of Append process.

Append As

BUNDLE CREATE

• Over time, a user's library of archived bundles could get very large perhaps making it difficult for the user to remember the name of the Bundle he/she wishes to append. By using the tag filter feature, (the user presses the Filter icon) the user is able to further refine their list of Existing Bundles.

• Clear Filters and Apply Filters buttons remain dim unless filters have been selected. These buttons will also become dim if and after a user clicks on the "Clear All" button

• MVP - Users can only Append To bundles that they themselves created.

BUNDLE CREATE

Append As

• Filter icon is Blue when active - i.e., when a filter is being applied

Append As

• The list is further refined by any text input into the Search bar. The Bundle search keys on any [partial] match for Bundle name and/or any exact match tag. Regarding partial match of Bundle name, if a user types in "Health" then the list will be honed to show all matches e.g., "Health Related", "Health Summary", etc...

BUNDLE CREATE

Append As

Pushing
Scrolling Area
Pushing

- Before sending, user can review and by clicking on the circled checkmark, can unselect (remove) any message from the Bundle.
- Moved Bundle dashboard to bottom.
- Pressing the "+" OR anywhere inside the Channel Recipients text entry box reveals channel dropdown.
- If a Bundle is not Shared with any other channel (other than "(me)") it is a "Private" Bundle.
- Note: Gear and magnifying glass icons (upper right) are not presented on Create Bundle screens
- Note: It is **not** be possible to create a Bundle with less than one message in it.

BUNDLE CREATE

- Background rectangle 75% opacity
- Change text from "SHARE BUNDLE WITH" to "CHANNEL RECIPIENTS"

- Add scroll bar if necessary
- Pin Button to bottom.

BUNDLE CREATE

Email Recipients

• Pin Bundle dashboard and Send button to the bottom of the screen when keyboard is not visible.

• Back arrow returns user to Quick Share/Save or Append/Cancel screen

BUNDLE CREATE

Email Recipients

- Immediately upon "+" icon to add email recipients is pressed, insert cursor inside email address entry box and display keyboard.

- Immediately upon "+" icon to add email recipients is pressed, scroll screen as shown - half of "Share with Channel" row shown.

- Remember email addresses for each user and offer typeahead suggestions to the user in subsequent email addressing situations - (i.e., don't limit the address memory and typeahead suggestions to just bundle recipient addressing) [need a design for later eliminating some of the remembered email addresses]

- Pressing anywhere outside of a text entry box hides the keyboard.

- After Add Button is pressed, hide keyboard - tapping inside the text entry box displays keyboard.

- Pressing "x" to cancel icon within the email address entry box clears the text entry box.

BUNDLE CREATE

Shown with two valid Email addresses

- Pressing the  icon to the right of "Email Recipients" collapses the Email Recipients section

- After collapse, if more than one line required to show list of selected channel names stick to one line but add "..." to indicate more. (see below)

- Show up to six rows of email recipients, then permit scroll if necessary.

- the  to cancel icon within the email address entry box is dimmed unless or until there is input.

- For email addresses that extend beyond the space permitted apply a fade to white (as shown) to hide the portion of the address that extends too far

page 1 of 3

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER

Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

SelectUSA

The United States represents the largest, most dynamic marketplace in the world and is an unparalleled location for business investment, innovation, and commercialization of new technologies. The U.S. offers tremendous resources and advantages for those who invest and manufacture goods here. Through SelectUSA, our nation works to promote and facilitate business investment. SelectUSA provides information assistance to the international investor community; serves as an ombudsman for existing and potential investors; advocates on behalf of U.S. cities, states, and regions competing for global investment; and counsels U.S. economic development organizations on investment attraction best practices. To learn more about why the United States is the best country in the world to develop technology, manufacture products, deliver services, and grow your business, visit <http://www.SelectUSA.gov> or call +1-202-482-6800.
