2021 New Fellows

No.	Section	Name	Professional Affiliation	Citation
1	Tokyo	Hideaki Aochi	Kioxia	for contributions to three dimensional flash memories
2	Tokyo	Hideaki Ishii	Tokyo Institute of Technology	for contributions to networked control of large-scale systems
3	Tokyo	Itsuro Morita	KDDI Research	for contributions to large-capacity transmissions systems with high-speed optical signals
4	Tokyo	Jinhua She	Tokyo Institute of Technology	for contributions to intelligent control of complex metallurgical processes
5	Tokyo	Takatoshi Tsujimura	Konica Minolta	for contributions to the development of organic-light-emitting diode system
6	Tokyo	Shinji Yuasa	Advanced Industrial Science and Technology (AIST)	for contributions to MgO-based magnetic tunnel junctions
7	Sendai	Tetsuya Suemitsu	Tohoku University	for contributions to high-frequency high-electron-mobility transistors
8	Nagoya	Jianqing Wang	Nagoya Institute of Technology	for contributions to electro-magnetic compatibility of biological and wearable/implant devices
9	Kansai	Jun Ohta	Nara Institute of Science and Technology	for contributions to CMOS image sensors and devices for biomedical applications
10	Kansai	Shinzo Tamai	Toshiba Mitsubishi-Electric Industrial Systems Corporation (TMEIC)	for contributions to control for motor drives and three-level converters
11	Kansai	Tomohiro Nakatani	NTT	for contributions to far-field signal processing for speech enhancement and recognition
12	Shikoku	Shuxiang Guo	Kagawa University	for contributions to medical robots for minimally invasive surgery and biomimetic underwater robots

13	Fukuoka	Gourab Majumdar	Mitsubishi Electric	for contribution to power semiconductor devices and intelligent power module
