18 Entry of Adverse Judgment and Termination of Trial After Institution
19 37 C.F.R. §§ 42.72, 42.73(b)
20

21 A trial in this proceeding was instituted on May 14, 2025, after we
22 determined that Petitioner had a reasonable likelihood of prevailing on its
23 assertion that all claims of Patent 11,725,241 (“the ’241 patent”) are
24 unpatentable. (See Paper 7.) With Board authorization, the parties
25 subsequently filed a Joint Motion for Adverse Judgment and Termination of
26 Proceedings Following Adverse Judgment, pursuant to 35 U.S.C. § 317, 37
27 C.F.R. §§ 42.5, 42.71(a), 42.72, and 42.73, on July 28, 2025. (See Paper

17.) Previously, on July 11, 2025, Patent Owner filed a disclaimer disclaiming the entire term of the '241 patent. (*See* Ex. 2020.)

Because there is no term left for any claim of the '241 patent, we determine it is appropriate to terminate the *inter partes* review and enter judgment against Patent Owner.

ORDER

Accordingly, it is:

ORDERED that the parties' joint motion for adverse judgment is granted; and

FURTHER ORDERED that the *inter partes* review is terminated.
