Subject: RE: parent / Child

Hi Paul,

No the sample apps and documentation have not been updated yet.
I created a JIRA to track this need: <https://spe-jira.flextronics.com/browse/AA-3831>

Thanks,
-Stan

Subject: parent / Child

Hi,

I understand that ParentChild may have been added to the framework. Have we updated the SDK documentation to reflect this and to document the application requirements and consumption? Have we updated the sample applications to illustrate this?
