Subject: [JIRA] Assigned: (SSA-1111) Hook up the status bar tablet mode button so that it toggles the tablet app mode

[<https://spe-jira.flextronics.com/browse/SSA-1111?page=com.atlassian.jira.plugin.system.issuetabpanels:all-tabpanel>]

Stanley Kurdziel reassigned SSA-1111:

Assignee: Ron Cassar (was: Stanley Kurdziel)

Hey Ron,

AA-4338 was merged today, so the tablet App Mode button is now available in the status bar pull-down panel. My understanding is that someone from your team is slated to wire it up so that the button actually changes the app mode. Let me know if that's not the case.

Thanks =)

> Hook up the status bar tablet mode button so that it toggles the tablet app mode

>

> AA-4338 and patchset <http://10.118.198.44:8081/#change,9325> add a tablet app mode button to the status bar pulldown view when in tablet mode.

> However, the button does not currently toggle the system app mode from single app mode to dual app mode or vice versa.

> There are TODO statements in the TabletModeControlModel.java class which indicate where this toggle code should go.
