> Steps to reproduce:

> 1. Launch an app, on any of the 2 displays (e.g. Settings, or Calculator)  
> 2. Press Home to reveal  
> 3. Press twice on the Menu, to invoke, then dismiss the menu  
> 4. Press Back to unreveal (app gets back on screen)  
> 5. Press Back again (app gets dismissed)  
> 6. Launch that app again, on the same display  
> 7. Slide it to the other display  
> - Expected Result:  
> App slides on the other display, revealing the Launcher  
>  
> - Actual result:  
> App slides on the other display, revealing its clone on the initial display. Cause: at step 5 above, the app (its Activity) does not get removed from the HistoryRecord.
