Dear Honorable Board,

Patent Owner's litigation counsel notified Petitioner's counsel on April 21, 2025 that Patent Owner was withdrawing all claims in the parallel District Court litigation relating to the '463 patent challenged in IPR2025-00083. The Parties' litigation counsel reached agreement on dismissal of the '463 patent in the parallel litigation on April 30, 2025, and will be filing a motion to dismiss shortly.

This IPR proceeding is not subject to the Interim Processes set forth in the Director's Memo dated March 26, 2025. The Parties jointly provide this update to satisfy their duty to update the Board as to the status of the related litigation (see e.g., 37 C.F.R. §§ 42.8 and 42.11), which is relevant to the Board's consideration of the *Fintiv* factors for discretionary denial and related judicial efficiency. Petitioner and Patent Owner each seek permission to file 2-page papers explaining the impact of this dismissal on the *Fintiv* discretionary denial factors. Petitioner alternatively seeks permission to file the dismissal with the Board as an exhibit once it has been entered by the district court, in the event the additional briefing is not permitted.

Best regards,
Dan
