DESCRIPTION

FIG. 1 is a first image in a sequence for a display screen or portion thereof with animated graphical user interface showing a first embodiment of my new design.

FIG. 2 is a second image in a sequence of the first embodiment; and,

FIG. 3 is a third image in a sequence of the first embodiment. The broken lines indicate unclaimed portions of the article and form no part of the claimed design.

The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
