Dear Director and Honorable Board,

Patent Owner attempted to file their Requests for Director Review in IPR2025-00107, IPR2025-00108, and IPR2025-00109 today, but received errors when trying to submit the filings in P-TACTS, see below. Patent Owner has served these documents on counsel for Petitioner. Patent Owner requests these documents be deemed timely. The required fees may be charged to deposit account 06-0916 immediately or we will pay the required fees when we are able to upload to the system, whichever the Office prefers.

The image displays two screenshots of the USPTO P-TACTS interface for filing a request for Director Review. Both screenshots show the 'File a request for Director Review for Institution Decision' form. The form includes fields for Filing party (Patent Owner), Doc type (Paper), Paper type (Request for Director Review - Institution Decision), Availability (Public), Document name (Patent Owner's Request for Director Review), and Document (2025.06.23 PO Request for Director Review IPR2025-00107.pdf in the top screenshot and 2025.06.23 PO Request for Director Review IPR2025-00108.pdf in the bottom screenshot). The form also includes a 'List of documents' table and an 'Add to list' button. Error messages are visible on the right side of the form: 'Failed to add document to list' and 'Error: A virus detection system failed'.
