Potato Pedigree Database

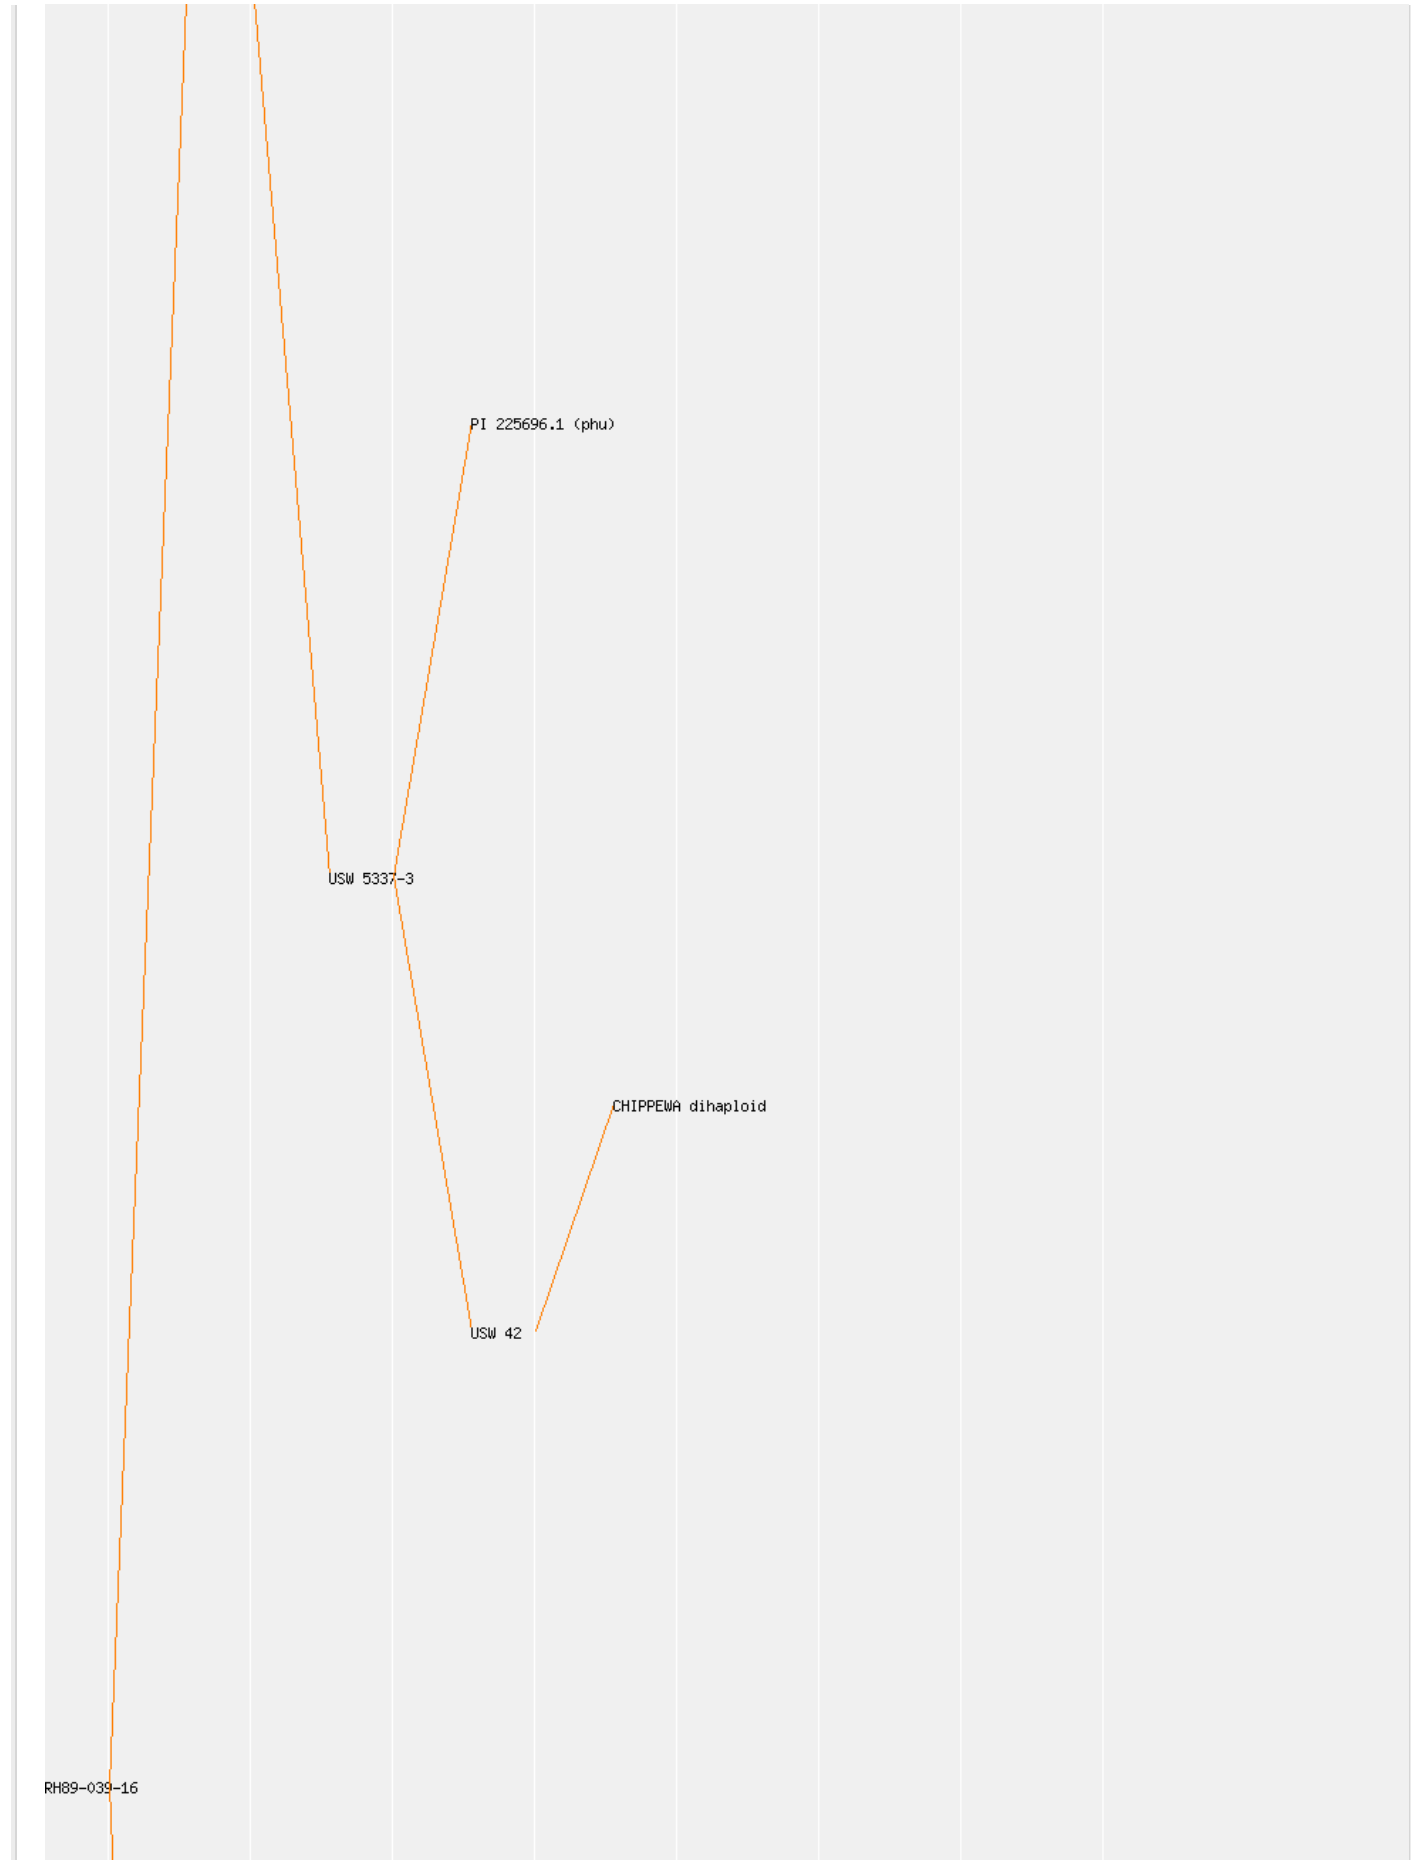

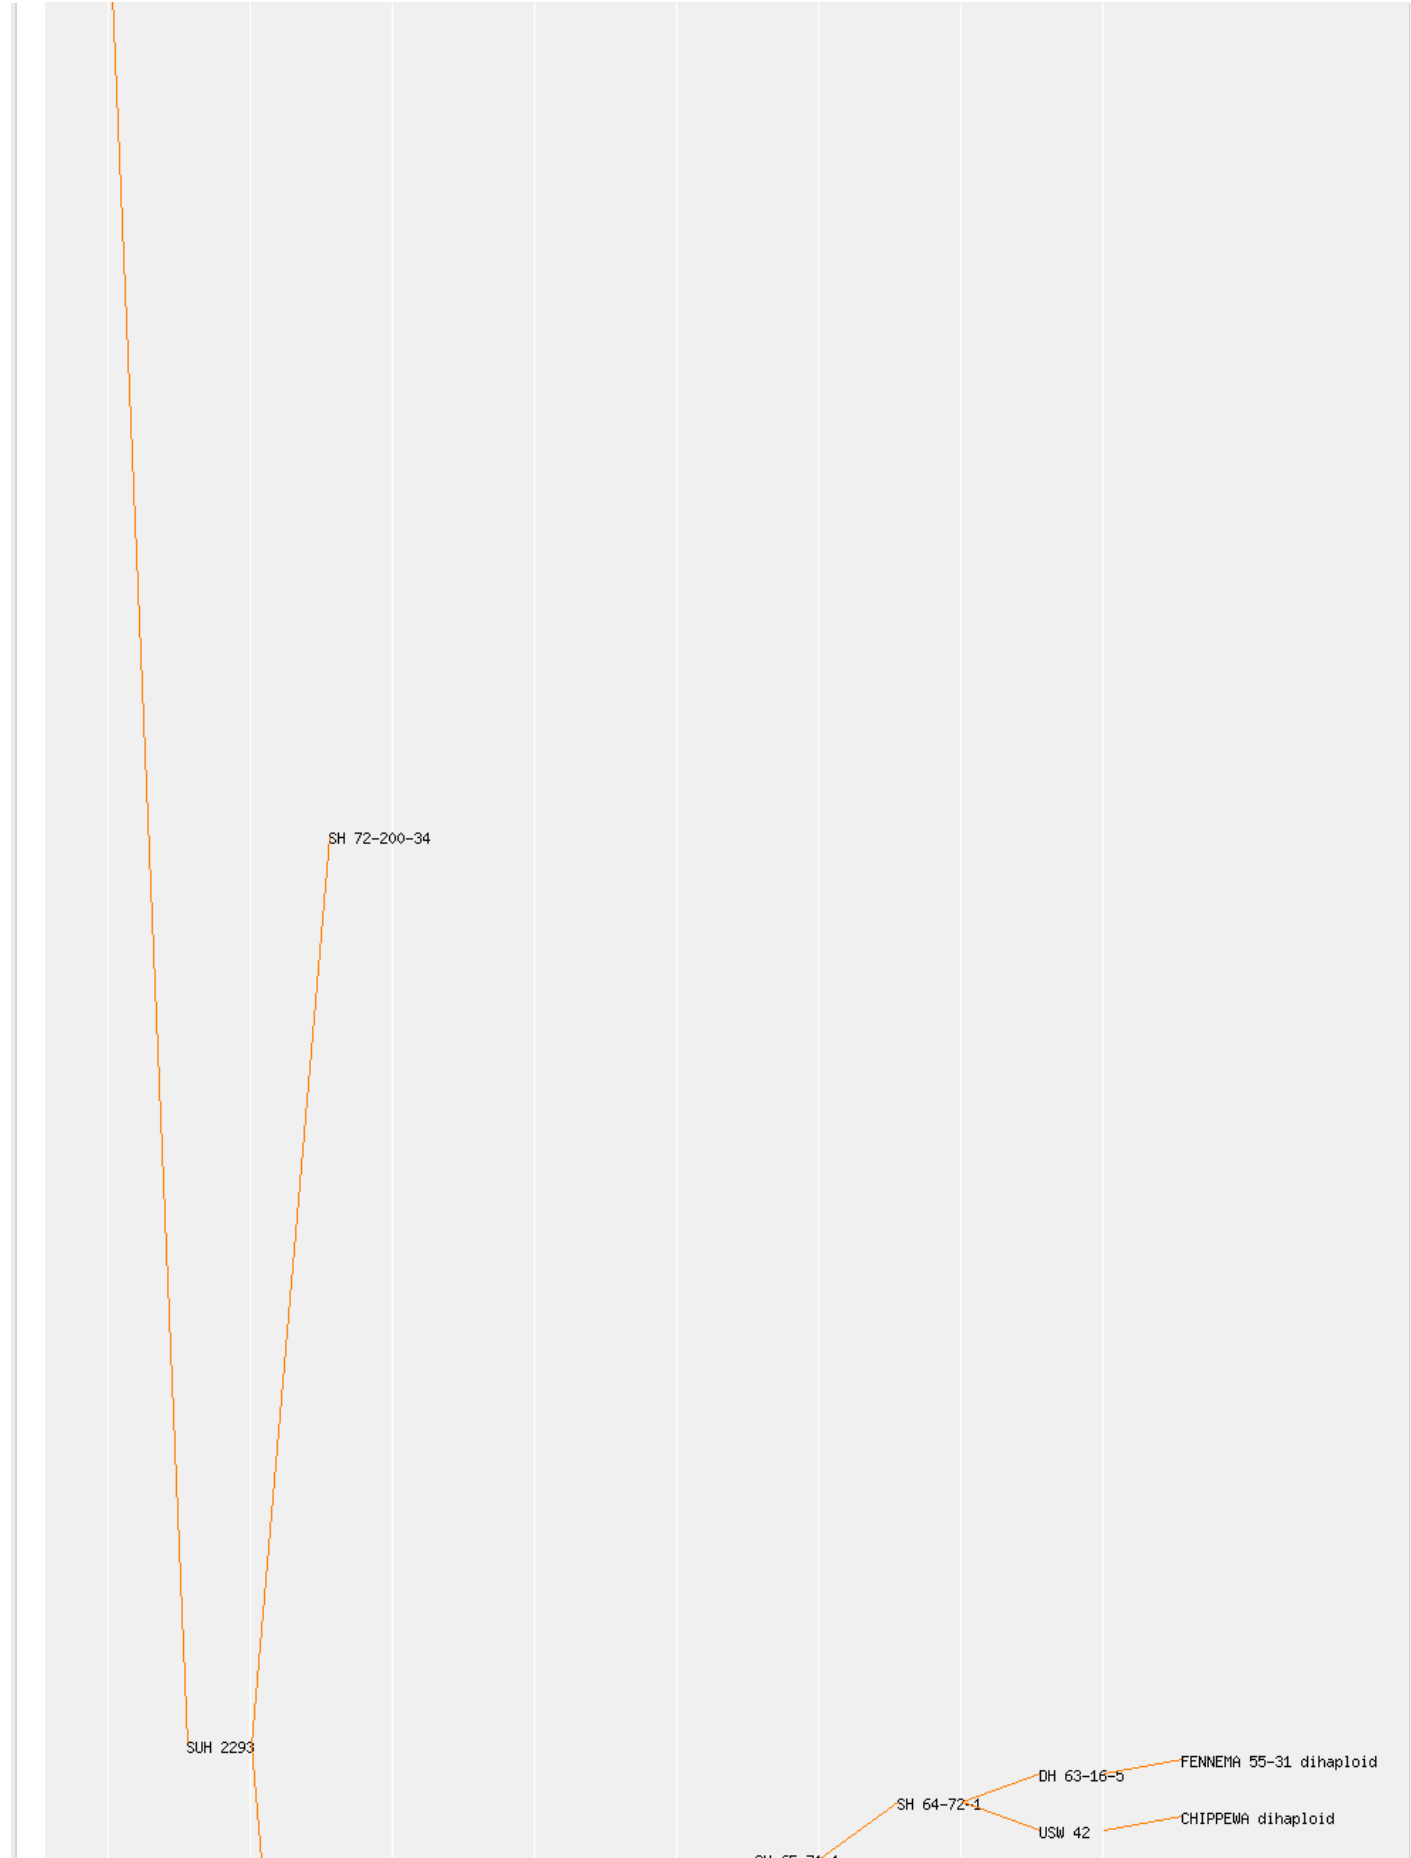

pedigree image for 'RH89-039-16' (year: unknown) [depth=8]

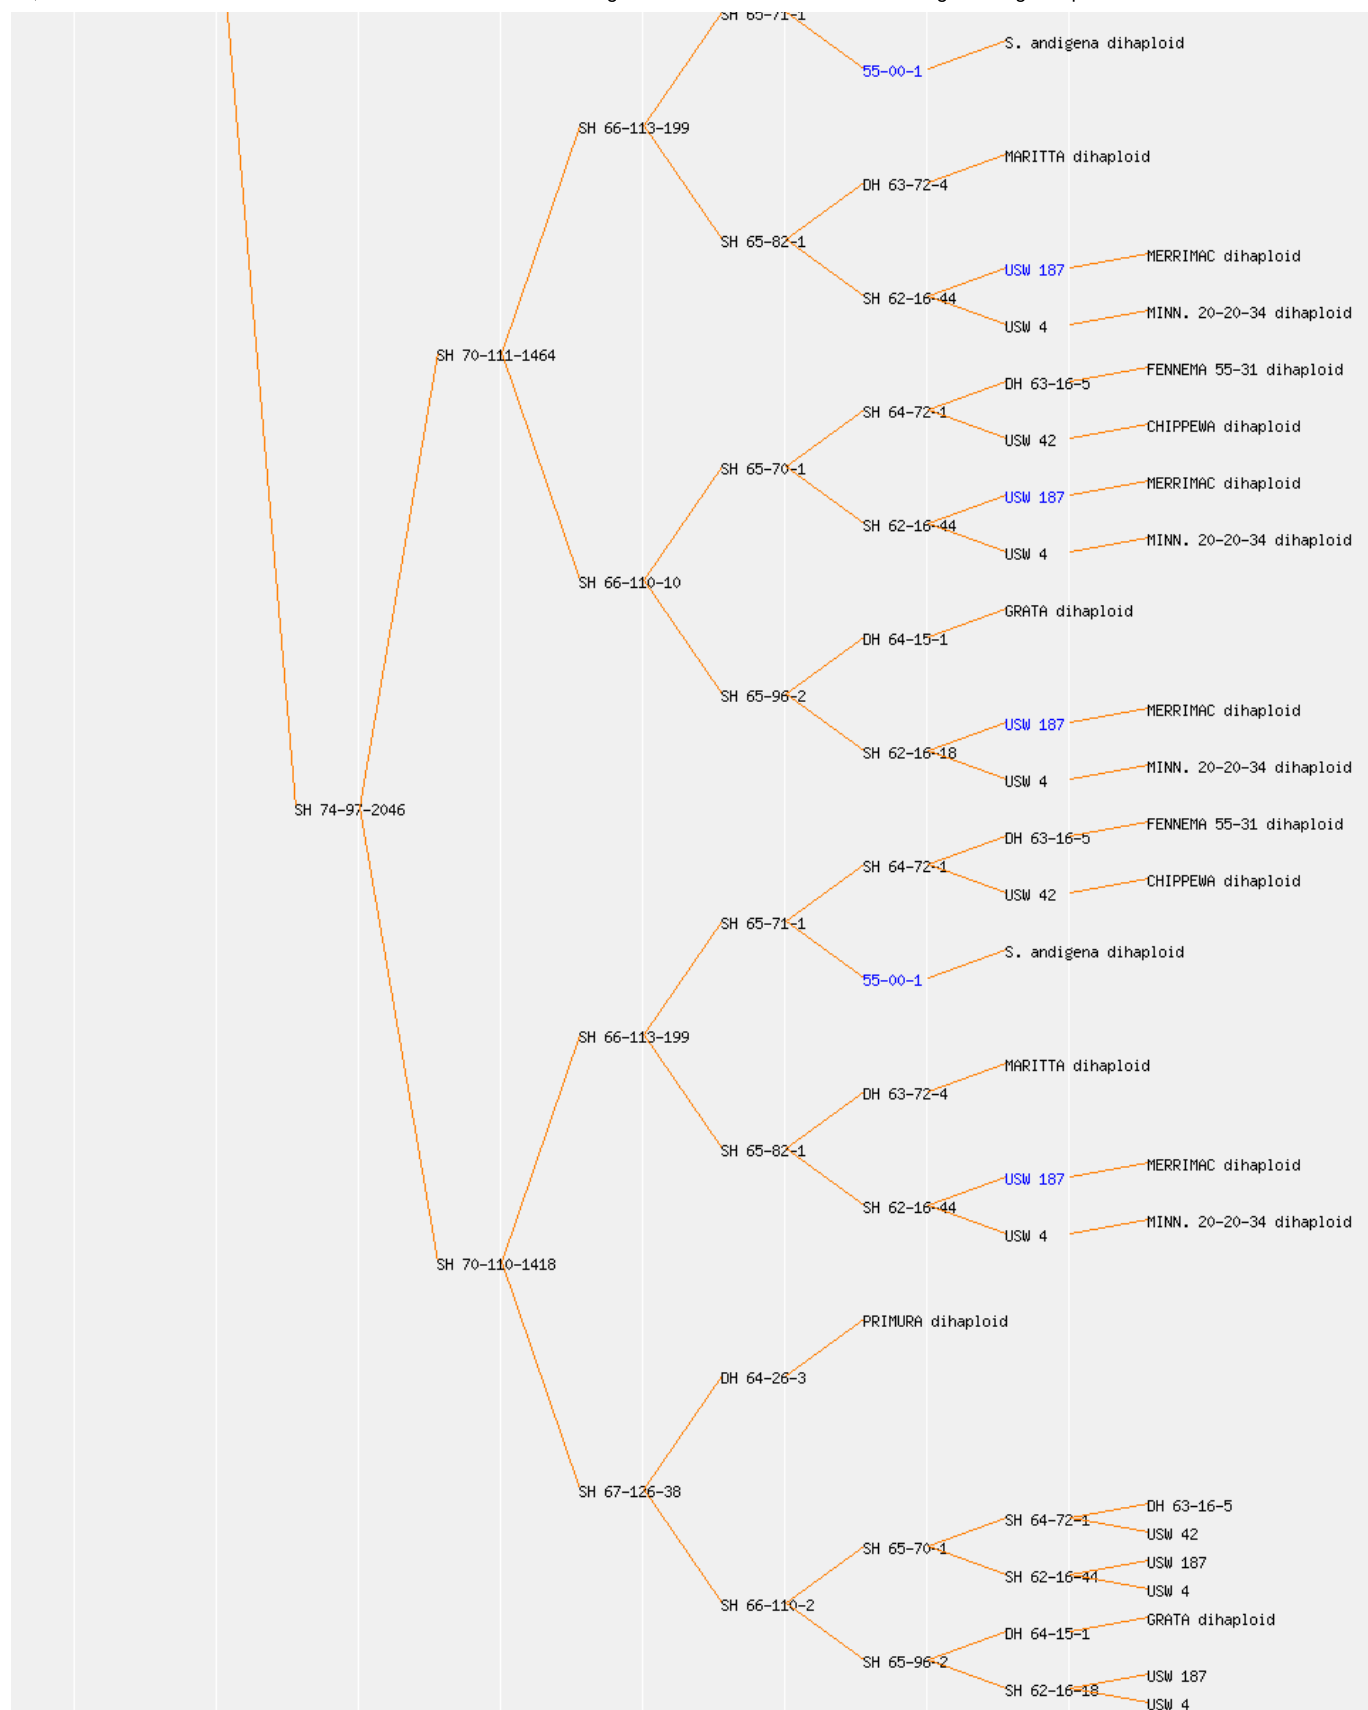

change image tree depth: 8 Show year of release (when known): No

- **Colored names** indicate that there are more possibilities (several cultivars with the same name), only the branch of the first cultivar that was found is shown
- **Clicking on a name** will open a popup window with new search results for that cultivar and a link to europotato.org

note: tree images are dimensioned to accomodate full info at the deepest level (the more levels, the taller the picture),
if no info is available at a deep level you may want to reduce the tree depth to obtain a more concise overview
