**Trademark/Service Mark Statement of Use
(15 U.S.C. Section 1051(d))**

To the Commissioner for Trademarks:

MARK: NFPA 70

SERIAL NUMBER: 78913310

This Allegation of Use is being filed after a Notice of Allowance has issued.

The applicant, National Fire Protection Association, Inc., having an address of One Batterymarch, Quincy, Massachusetts United States 021697471, is using or is using through a related company or licensee the mark in commerce on or in connection with the goods and/or services as follows:

For International Class 016:

Current identification: Periodical publications in the field of electrical and safety standards; books and handbooks in the field of electrical and safety standards

The applicant, or the applicant's related company or licensee, is using the mark in commerce on or in connection with all goods and/or services listed in the application or Notice of Allowance or as subsequently modified.

The mark was first used by the applicant, or the applicant's related company, licensee, or predecessor in interest at least as early as 00/00/1951, and first used in commerce at least as early as 00/00/1951, and is now in use in such commerce. The applicant is submitting one specimen for the class showing the mark as used in commerce on or in connection with any item in the class, consisting of a(n) page from an online catalog, and pages from a printed catalog, constituting display specimens.

[Specimen File1](#)

[Specimen File2](#)

[Specimen File3](#)

The applicant hereby appoints Timothy H. Hiebert of Samuels & Hiebert LLC, Two International Place, 23rd Floor, Boston, Massachusetts United States 02110-4104 to submit this Trademark/Service Mark Statement of Use on behalf of the applicant.

A fee payment in the amount of \$100 will be submitted with the form, representing payment for 1 class.

Declaration

Applicant requests registration of the above-identified trademark/service mark in the United States Patent and Trademark Office on the Principal Register established by the Act of July 5, 1946 (15 U.S.C. Section 1051 et seq., as amended). Applicant is the owner of the mark sought to be registered, and is using the mark in commerce on or in connection with the goods/services identified above, as evidenced by the attached specimen(s) showing the mark as used in commerce.

The undersigned being hereby warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. Section 1001, and that such willful false statements and the like may jeopardize the validity of this document, declares that he/she is properly authorized to execute this document on behalf of the Owner; and all statements made of his/her own knowledge are true and that all statements made on information and belief are believed to be true.

What Others Say

Stay competitive and up-to-code! The 2005 NFPA 70: National Electrical Code® is today's blueprint for electrical fire safety.

Reduce the risk of fire and electric shock hazards, and boost confidence in your electrical installations with the 2005 *National Electrical Code*. Already directly adopted in many states, this important NEC® edition is fully up-to-date with industry practices, new equipment, and advancements in technology. It's the vital link between electrical equipment installation and safe use by consumers.

Major revisions in the 2005 NEC work to improve protection of people and property:

- Expanded requirements for ground-fault circuit-interrupters (GFCI) call for wider use of these devices in homes, businesses, and public spaces
- New requirements for arc-fault circuit-interrupters (AFCI)
- First-time Article 409 introduces rules for industrial control panels
- First-time Article 506 presents a zone hazardous area classification system for combustible dusts and ignitable fibers and flyings
- First-time Article 682 covers natural and artificially made bodies of water not classified as swimming pools or fountains
- First-time Article 353 governs installations using HDPE conduit
- Reorganized electrical calculation requirements in Article 220: Branch Circuit, Feeder and Service Calculations
- New requirements for identification of ungrounded branch circuit and feeder conductors protect electricians and maintenance personnel

Developed by NFPA®, the *National Electrical Code* has long been the world's most widely adopted safety code. Order the 2005 edition of the NEC direct from the source! This Softbound edition is the #1 choice of contractors and installers industrywide. (Softbound, 792 pages, 2005)

2008 NEC® formats enhance pr

Customize your Code! The 2008 NEC Looseleaf makes it a snap to reorganize information or insert project-specific details.

Comply with the latest *National Electrical Code*® requirements based on new research, technology, and society's changing needs...and stay more organized on the job! You'll be prepared for any project with the 2008 NEC Looseleaf. The sturdy five-ring binder lets you remove NEC pages for meetings or specific tasks, add equipment specs or information from other sources such as the UL White Book, and conduct in-depth research more comfortably with the lay-flat binder. This versatile format helps you keep track of all the details, so you gain a flexible, customized Code that enhances productivity every day.

Your peers who use the Looseleaf format say convenience is the key...

"My company mandates we use the latest NEC edition, as do most municipalities and states where we build plants. I prefer the Looseleaf format because I can open it wide to lay flat on the desk. If I need to show someone a section of the Code, I just remove one part," says James Smith, Electrical Power Engineer for Praxair in Tonawanda, NY. Other users appreciate the binder's durability—it holds up to heavy use in the field. Forget about juggling a load of papers and a stack of books! The NEC Looseleaf is a smart investment for installers,

6

Your satisfaction is #1 with NFPA®'s 30-day unconditional guarantee.

productivity!

The NEC Looseleaf opens flat on your desk for convenient referencing.

NEW!

Power up the new 2008 NEC on CD-ROM!

Put your computer to work conducting instant searches throughout the landmark 2008 *National Electrical Code*®! The electronic 2008 NEC's user-friendly tools help you keep electrical designs and installations on track and in compliance.

Download the Code for easy access anywhere you work!

- Conduct fast searches by word or phrase. New, refined searching capabilities deliver more precise results. Never miss a single reference!
- Print or cut and paste selected text and graphics at the touch of a key.
- Bookmark frequently-referenced or selected requirements for retrieval in meetings or on the job.

Save time as you apply the 2008 NEC!

Maximize accuracy and efficiency in the office or the field with this user-friendly electronic format of the most important document in the electrical industry. Get the 2008 Code cycle off to a speedy start. Reserve your CD now.

Durable, five-ring binder lets you easily remove or add pages.

Organize materials, add information, and keep facts together!
