ORDER NO. 32: CONSTRUING REMAINING DISPUTED CLAIM TERM

(March 19, 2025)

On March 14, 2025, Order No. 29 issued, which construed certain terms of the asserted claims (“*Markman* Order”) of the sole asserted patent, U.S. Patent No. 11,865,287 (“the ’287 patent”).¹ The *Markman* Order left the claim term “fluid control member” as “to be determined.” (Order No. 29 at 8 (Mar. 14, 2025).).

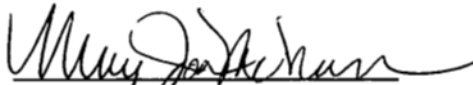

The following table summarizes the disputed claim term, i.e., “fluid control member” and the Parties’ proposed constructions. The final column of the table contains the adopted construction of the term based on the Parties’ briefs, the arguments presented during the *Markman* hearing, and the record evidence. Like the terms adopted in Order No. 29, a later Order will issue with an explanation of the adopted construction.

Claim Term	Complainant’s Proposed Construction	Respondents’ Proposed Construction	Adopted Construction
fluid control member '287 Patent (Claim 11)	Subject to 35 U.S.C. § 112, ¶6. <u>Function</u> : “be in fluid communication with at least a first container and a second container” and “be in fluid	This term is indefinite and lacks written description. Alternatively, this term is subject to 35 U.S.C. § 112, ¶6. Its function is	Subject to 35 U.S.C. § 112, ¶6. <u>Function</u> : “be in fluid communication with at least a first container and a second container when the first container and the second container are
