Founder's vision for LUNA

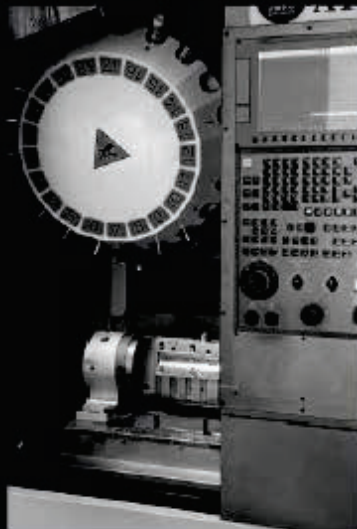

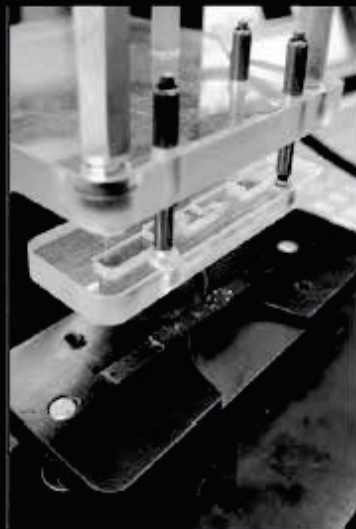

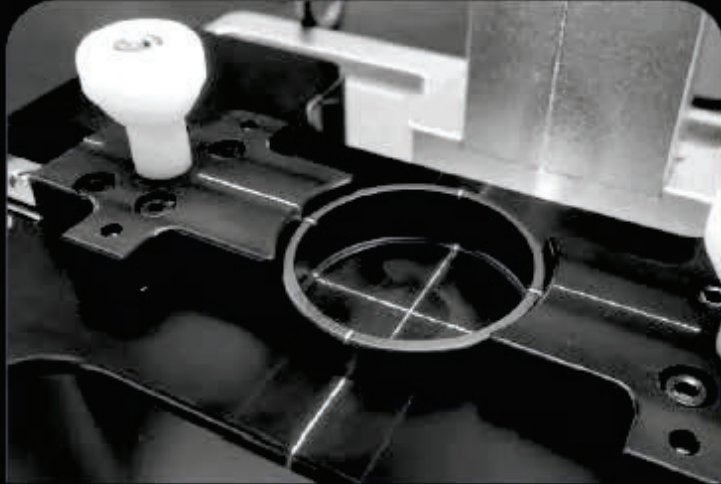

For years, we envisioned a future where technology goes beyond mere health tracking to become a powerful tool for self-discovery. A future where innovation empowers people to enhance their lives and pursue their best and healthiest selves. Luna Ring embodies this dream of ours.

Designed with utmost precision and care, it represents our commitment to utilizing technology for the greater good. It emerges as a transformative addition allowing individuals to take charge of their cognitive performance, fostering holistic well-being.

We believe that LUNA Ring will make a significant impact on our consumer's lives by elevating the power of wearable technology and empowering them to catalyze effective health codes.

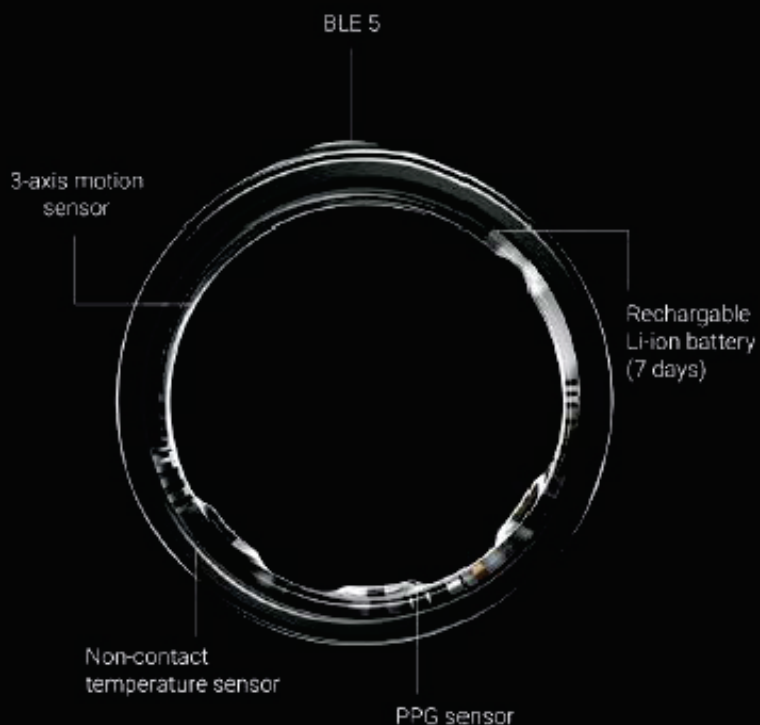

LUNA Ring Manufacturing Updates

An engineering marvel

Design Patented

The LUNA Ring packs cutting-edge technology into a remarkably sleek and stylish design.

Timeline

-  **May 2024**
Initiation of shipping of units to backers
-  **April 2024**
Shipping of sizing kit
-  **March 2024**
Indiegogo campaign kickoff
-  **October 2023**
Shipped across India
-  **September 2023**
Luna Pass holders receive the first batch
-  **August 2023**
Internal testing, production line set up, iterations and certifications
-  **April 2023**
Ready for production
-  **July 2023**
Official announcement of the ring with pre-booking passes

-  **February 2023**
1st fully functional prototype created
-  **December 2022**
1st working prototype built
-  **March 2022**
Conceptualizing the Luna Ring

Shipping Policy

Where do we ship?

Shipping is free of cost globally. Any applicable taxes, VAT, GST, custom duty (if applicable), etc. based on local laws will be payable by the customer at the time of ring delivery.

When do we ship?

We will begin shipping your orders starting May 2024. You will receive our progress details and the expected delivery date of your order via mail.

Why order now?

By backing us now, you get exclusive access to a host of new features and early bird discounts on your LUNA Ring.

Return Policy

We're confident you'll love LUNA Ring, but if for any reason you're not satisfied, we offer a hassle-free return and exchange policy for international orders (excluding India)

Free 14-day returns

No questions asked. Simply return or exchange your LUNA Ring within 14 days of delivery by writing to us at hello@luna-ring.com with the subject line '14 days exchange' and the reason for return or exchange

Damaged/Defective products

We take quality seriously. If you receive a damaged or defective ring, write us an email at hello@luna-ring.com with 'Damaged product received' as the subject line and explain the issue with your product within 24 hours for a replacement. We will not be able to accommodate any returns for damaged or defective products after 24 hours of the product getting delivered.

1-year warranty

LUNA Ring has a 1-year warranty for exchanges in case of technical issues. During this period the ring is eligible for exchange based on the issue reported by the owner. Our customer support team will try to troubleshoot the error remotely and will approve the exchange in case the error persists. To initiate the exchange of your LUNA ring you need to send an email with the subject line 'LUNA Service: Under Warranty', and our customer support team will get back to you within 24 working hours. For detailed instructions on initiating a return/exchange or canceling your Luna Ring order, [click here](#).

Join the Community!

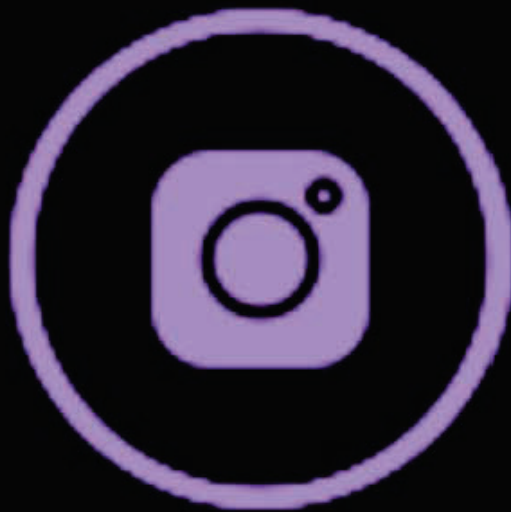

Inspired to begin your journey to wellness?

Don't embark on this journey alone.

Spread the word by clicking one of the buttons below or simply tag your friends, family, or a coworker who needs this.

By sharing this you are not just inviting people to experience an innovation but inspiring them to join a movement. A movement where self-discovery thrives alongside shared support and encouragement.

Sharing is caring, after all.

Risks and challenges

Overcoming Challenges for a Flawless LUNA Ring

At Noise, we're dedicated to delivering a LUNA Ring that not only looks great but functions flawlessly. Here's how we're tackling some initial design and manufacturing hurdles:

Challenges Addressed:

- 1. Manufacturing:** At Noise, we have over 9 years of experience designing and crafting innovative wearables. We've honed our expertise in sensor selection, PCBA design, R&D, hardware, algorithm, and software optimization. LUNA Ring's unique design presented a challenge in miniaturizing complex electronics. However, we've overcome this hurdle, meticulously crafting a ring that seamlessly integrates all essential sensors and hardware without compromising accuracy, performance, or battery life. Luna Ring has undergone extensive testing to ensure it meets our high standards for performance and reliability.
- 2. Low yield during manufacturing:** We've meticulously refined the design to minimize potential issues with flexible PCBs (printed circuit boards) during production, ensuring a higher yield of usable rings.
- 3. Multiple PCBs for different sizes:** Originally, multiple PCBs were needed to accommodate various finger sizes. We've successfully developed a single, versatile PCB that adapts to all sizes, streamlining production and reducing complexity.

4. **Supply chain concerns:** We understand the current supply chain challenges and are actively working with reliable partners to mitigate potential disruptions and ensure consistent material availability.

5. **Maintaining thinness:** Balancing functionality with a sleek form factor presented a challenge. However, we've optimized the design to deliver a LUNA Ring that's both comfortable and feature-rich.
