Government /

Solutions for Federal Government

Create the next generation of federal IT. Answer three simple questions to get your personalized solution report.

[Take the assessment](#)

Economically achieve a zero-trust posture

Modernize your mission networks with NaaS

Discover how a "dynamic trio" powered by NaaS can tackle technical debt, speed modernization, and enhance mission innovation in our newsletter featuring Gartner® research.

Cisco's FedRAMP® authorized, ready, and in-process solutions

Our FedRAMP solutions empower a hybrid work environment built on integrated cloud-ready networks and industry-leading security. With Cisco, you can meet the stringent requirements of NIST 800-53, U.S. Data Residency, and U.S. Person Operators and Administrators while enhancing security, reducing risks, and speeding deployment.

Enterprise networking

Cisco Meraki for government provides a secure and efficient way to support your networking transformation within budget.

New embedded switch module designed for open standards

Addressing the needs of mission-critical applications, Cisco and Curtiss-Wright combine strengths to build the new VPX3-623 switch module. The module is based on the Cisco Catalyst ESS9300 Embedded Series Switch and aligned with CMOSS/SOSA and OpenVPX standards, adopted by the U.S. Department of Defense.
