Case IPR2025-00190
Patent 11,568,941

PATENT OWNER'S OBJECTIONS TO PETITIONER'S EVIDENCE

Pursuant to 37 C.F.R. § 42.64(b)(1), Patent Owner Yangtze Memory Technologies Company, Ltd. ("Patent Owner") submits the following objections to the evidence relied on by Petitioner Micron Technology, Inc. ("Petitioner"). Patent Owner's objections apply equally to Petitioner's reliance on this evidence in any subsequently filed documents or further proceedings in this matter. These objections are timely, having been filed and served within five business days of evidence. Notwithstanding these objections, Patent Owner expressly reserves the right to rely on any evidence submitted by Petitioner, including on the ground that such evidence constitutes a party admission.

Objections

Exhibit 1078

Patent Owner objects to this exhibit as inadmissible hearsay under FRE 801 and 802 not falling under any exception, and as improper expert testimony under FRE 702 and 703, to the extent it impermissibly acts as a conduit for hearsay, including the hearsay objected to herein, and does not rely on the kinds of facts or data that experts in the relevant fields would reasonably rely on in forming an opinion on the subject without providing the underlying facts, data, and other required disclosures.

Patent Owner further objects to this exhibit for lack of foundation and lack of personal knowledge under FRE 602, and as improper lay testimony under FRE 701,

to the extent it offers testimony in areas outside of Mr. MacPherson's area of expertise or fails to properly provide the underlying facts, data, and other required disclosures.

Finally, Patent Owner objects to this exhibit under Fed. R. Evid. 401 and 402 as lacking relevance. This exhibit is irrelevant at least because it does not make any fact more or less probable than it would be without the evidence. Patent Owner objects to this exhibit because any probative value is substantially outweighed by a danger of unfair prejudice, confusing the issues, misleading the factfinder, wasting time, and needlessly presenting cumulative evidence under Fed. R. Evid. 403.

Exhibits 1079-1081

Patent Owner objects to these exhibits as not properly authenticated under FRE 901 because Petitioner has not presented sufficient evidence to show that they are authentic or self-authenticating under FRE 902. To the extent Petitioner relies on these documents for the truth of the matter asserted, Patent Owner objects to these exhibits as inadmissible hearsay under FRE 801 and 802 that do not fall under any exceptions, including those of FRE 803, 804, 805, or 807.
