2045	U.S. Patent No. 10,824,340, assigned to Phison Electronics Corp.	
2046	Excerpts from the Prosecution History of U.S. Patent Application No. 14/811,844 (issued as U.S. Patent No. 10,824,340), including Office Action dated May 9, 2019.	

I. Patent Owner’s Supplemental Brief Regarding “Settled Expectations”

Patent Owner submits this supplemental brief pursuant to the Court’s June 12, 2025 email. *See* Ex. 3101. U.S. Patent No. 10,950,300 (the “Challenged Patent”) is part of an established patent family including U.S. Patent Nos. 8,891,298 (the “298 Patent”); 9,196,385; 9,997,240; 10,950,300; 11,830,546; 11,854,612; 11,967,369; and 11,967,370 (the “Vervain Patents”). All share a common specification and are continuations of the 298 Patent, which issued in 2014.

In similar cases, the Board has found that “Petitioner’s awareness of Patent Owner’s applications and failure to seek early review of the patents favors denial,” particularly where the Petitioner “cited the then-pending application ... in an Information Disclosure Statement Petitioner filed in its own patent application,” resulting in “settled expectations.” *iRhythm Techs., Inc. v. Welch Allyn, Inc.*, No. IPR2025-00363, 2025 WL 1605274, at *1 (P.T.A.B. June 6, 2025).

Here, Petitioner Phison has been aware of the Vervain Patents since at least 2019. During prosecution of U.S. Patent No. 10,824,340—assigned to Phison—the Examiner cited the 298 Patent as prior art and provided a detailed explanation of its relevance. *See* Ex. 2045, Cover Page 2; Ex. 2046 (May 9, 2019 Office Action), 31-32 (“Rao (Pat 8,891,298) discloses...”). Phison was aware of the 298 Patent in 2019 but chose not to seek early review. Accordingly, the settled expectations of *all* the Vervain Patents—including the Challenged Patent—favor denial of institution.

Date: June 13, 2025

Respectfully submitted,

/Alan Whitehurst/
