Subject: IPR2025-00219

Dear Honorable Board:

Petitioner respectfully requests authorization to file a motion to strike a portion of Patent Owner's Sur-Reply filed in IPR2025-00219. Section I presents a new argument that (i) was not presented in the Patent Owner Response and (ii) is not responsive to Petitioner's Reply. Specifically, Patent Owner argues for the first time in Section I that the "allocation of an uplink resource" limitation is a "missing element" in the prior art mapping, and that this "gap" is found in both the Andersson and Zeira grounds. Sur-Reply, 1-5. The last sentence of Section I acknowledges that this is a "stand-alone matter," different from the two alleged defects identified in the Patent Owner Response. Sur-Reply, 5.

Petitioner conferred with Patent Owner and Patent Owner states: "Patent Owner opposes the request and submits that the arguments in the Sur-reply are properly responsive to the Petitioner's reply."

The parties are generally available for a conference call if needed.

Thank you,

Scott Jarratt
