Subject: RE: IPR2025-00229 (838 Patent) - Proposed Motion to Terminate

Dear Board,

Now that filing dates have been accorded in IPR2025-00229 (see Paper 6, dated 1/30/25) and PGR2025-00021 (see Paper 6, 3/6/2025), Petitioner in IPR2025-00229 respectfully renews its request set forth in the email below for leave to file a motion to terminate IPR2025-00229 in favor of PGR2025-00021.

Best regards,
Patrick Herman
Counsel for Petitioner

YMTC
Exhibit 2001
Micron v. YMTC
IPR2025-00229
Ex. 2001-001

Dear Board,

Petitioner respectfully requests leave to file a motion to terminate IPR2025-00229. The petition in this inter partes review proceeding was filed November 29, 2024 and relates to U.S. Patent No. 12,010,838 (the "'838 patent"). Petitioner filed another petition for post grant review of the '838 patent in PGR2025-00021 on January 6, 2025. Both the IPR and the PGR petition are substantively identical: they address the same '838 patent claims and include the same grounds of invalidity. As of the sending of this email, neither petition has been accorded a filing date. No Patent Owner preliminary response has been filed and no institution decision has been rendered. The '838 patent issued June 11, 2024. To avoid an unnecessary dispute regarding the timing of the filing of Petitioner's IPR petition, and to eliminate the need for the potential duplication of efforts on the part of Patent Owner and the Board, Petitioner requests leave to move to terminate IPR2025-00229. PGR2025-00021 will remain pending. Petitioner and Patent Owner have conferred. Patent Owner indicates that it does not oppose this proposed motion.

Best regards,
Patrick Herman
Counsel for Petitioner
